GERMANS STILL MAKING ADVANCE AT VERDUN

Capture Hill No. 266 After a Terrific Bombardment and at a Great Cost of Troops—French Admit That They Have Given Way

(Special to The Herald)

Paris, March 7.—Further progress by the German troops assaulting the French positions along the Verdun front were admitted by the official communication of the French war office, issued this morning. "The Germans have advanced on the west bank of the Meuse river under cover of a very heavy bombardment and by the free use of liquid gas they have reached the outskirts of the village of Regnyville and have captured Hill No. 266, though the success of the last assault was only obtained at a dreadful sacrifice of troops who were mowed down by the hundreds by the fire of the French artillery and especially by the machine gun division."

Their advance of yesterday took them to the village of Forges which they captured after a brilliant assault, but for each of these minor points taken they have paid the full toll in human lives, and at the rate they are

going, before reaching Verdun the entire army of the Crown Prince will be disabled. German reinforcements are being rushed to this point and all of the experts look for at least another week of fighting.

Geneva, March 7.—Austrian troops are reported to be moving in France to reinforce the Germans in front of Verdun.

Berlin, March 7.—German troops have captured the village of Fresnes in the Woëvre district. It was announced today by the war office. South of La Vasse the British have been driven out of Vermeilles at the point of the bayonet. In Champagne, a French position at Malmaison de Champagne has been taken, the Germans capturing two officers and 180 men. Fresnes is seven miles southeast of Verdun and has been the scene of violent fighting.

RAID COST THIRTEEN LIVES Zeppelin Drops Ninety Bombs in Sunday's Raid.

London, March 7.—The death toll from the raid of Sunday night by Zeppelins, now totals thirteen. This was announced by the Admiralty today. The German airships dropped 90 bombs instead of 40 as first reported.

HER BIRTHDAY PARTY
Mrs. Lizzie Thompson, wife of

Mr. M. Thompson, entertained a party of friends at her home on Hill street on Saturday evening. The occasion was the anniversary of her birth. The home was prettily decorated for the event and a delightful lunch was served during the evening. Members of the party brought many handsome gifts which they bestowed upon the hostess. The event will long be remembered by those present.

POSTMASTER AT SALEM DEPOT.

Among the nominations for postmaster sent to the Senate yesterday was that of K. M. McLaughlin at Salem Depot.

CONGRESS WILL BACK UP PRESIDENT WILSON

Preliminary Vote Shows He Is In Control—First Test Vote 256 to 160—Debate Limited and Vote at Four O'clock

(Special to The Herald)

Washington, March 7.—The House of Representatives surrendered to President Wilson, the first test vote on proposals to warn Americans off the armed ships, showed that the forces of the administration were in complete control. By a vote of 256 to 160, the house carried a motion to limit debate on the special rule for the consideration of the MacLennan warning resolution. The motion to adopt the rule which limited the debate on the MacLennan resolution was carried by a vote of 271 to 138. The administration called for four hours' debate on the resolution, followed by a motion to lay it on the table. The first two votes indicated that the program would go through easily. The vote came in the midst of a day of sensational debate, such as the house has seldom seen. Plan for support of the President who has "carried the greatest national responsibility of any President since Lincoln," aroused the house to wild enthusiasm. The vote will be taken about four o'clock.

Washington, March 7.—One hour and a half was agreed upon by the house today as the time limit under which the special rule, recommended by the Rules Committee, which would permit the tabling of the MacLennan resolution, warning Americans to keep off armed ships, could be debated. Acting Chairman Fox, of the Rules Committee immediately opened the argument, declaring that the tabling of the resolution would conclusively "show that the house was standing squarely behind the President in his handling of the submarine controversy with Germany." "It has been said that the President wants war," he shouted. "All the limbs of hell never devised a more infamous lie; the President has struggled for peace; no President since Abraham Lincoln has borne the burden he has; but the President is not ready to surrender the rights of American citizens under international law."

Representative Campbell of Kansas opened the debate for the opponents of the rule, explaining that he would, if the previous question was voted down, immediately offer a substitute.

"Does any one believe that warning Americans not to travel on ships that have been called by the secretary of state 'offensive armed,' is yielding any of the rights?" He discussed the horrors of the European war and said, "We are trifling with this horror over the right of foolhardy Americans to travel on armed ships. The one thing for this house to do is to avoid war so far as the action of the house can avoid war."

Representative Harrison, who has led the fight for the President during the strenuous weeks of the congressional outbreak declared that the house must vote on the issue of sustaining the President. "If you vote down this rule," he said "you vote to encourage the people in foreign capitals, and you also vote to slay your President in the back."

When the house met at eleven o'clock the house galleries were packed and there was a general hum of conversation, so that the speaker was forced to call the attention of the members and spectators that there would be no applause or signs of disapproval allowed.

GERMANY WILL DECLARE WAR ON PORTUGAL

If Seized Teuton Ships Are Not Released Will Begin War Preparations.

Copenhagen, March 7.—Berlin advices state that if Portugal retains the

Teuton ships that have been seized Germany will immediately be induced to begin warlike operations. The news is based on a German opinion, is more optimistic regarding American relations. President Wilson's victory in the senate voting of less importance than the first dispatches. Stockholm dispatches say that Sweden has twice tried to get President Wilson to offer plans of peace, but he has refused.

FRENCH AIRMEN DO DAMAGE AT METZ

Bombard Forts and Reach the Ammunition Trains for Verdun.

Amsterdam, March 7.—French aviators bombarded three of the chief ports at Metz on Monday and also dropped bombs on German ammunition trains carrying supplies to the German troops at Verdun. According to the reports the air raids resulted in the great damage yet reported to this great fortress city.

'SEEING THE HANDWRITING'

(Special to The Herald)

Washington, March 7.—Representative Sherwood of Ohio, one of the oldest members of his house, announced that following the vote on the issue of warning Americans off armed ships, he would decline to be a candidate for re-nomination. "He followed the example of Representative Page of North Carolina who last night notified his people that he would not be a candidate again."

BAKER'S NAME SENT TO THE SENATE

Nomination for Secretary of War Announced by the President.

Washington, March 7.—President Wilson this afternoon sent to the senate the nomination of Newton D. Baker, former mayor of Cleveland as secretary of war.

FISHING INDUSTRY MAY BE REVIVED IN THIS CITY

Cold Storage Fish and Ice Company, Incorporated for \$75,000, to Erect Plant on Water Front.-- Will be Owned and Operated by Portsmouth Business Men.

Through the efforts of a few business men in this city, Portsmouth is on the eve of a return of the fishing industry which at one time made this port one of the busiest on the Atlantic Sea Coast, the fishing industry, and negotiations are now practically complete for the building of a \$75,000 fish and ice plant for the carrying on of an immense business. The concern is to be capitalized for \$75,000 and will be incorporated as The Cold Storage Fish and Ice Company, with a plant to cost in the neighborhood of \$10,000, located on Sheik's Wharf, formerly the property of the Herbert Fish Company.

The building will be 400 feet by 61 feet and will contain a refrigerating plant for the manufacture of 20 tons of artificial ice every 12 hours. It will also include machinery for the freezing of salt so that fresh and salt fish may be handled with equal facilities. The Cold Storage Fish and Ice Company is a Portsmouth concern in every particular. Portsmouth capital only being employed in the erection of

the plant and the carrying on of the business. The fishermen in this section of the coast have signified their intentions of doing their business with the Portsmouth company, and fishermen from Newburyport, who formerly took their catches to that city, will now come here. It is at the request of the promoters of this company that their names be withheld for the present by this paper is assured on excellent authority that there is very little doubt but that the work of construction will be started within a month.

Mr. J. J. O'Neil, an electrical and refrigerating engineer of Boston, connected with the Carbon Dioxide Company of Philadelphia, was here last week in consultation with the promoters and has submitted figures for the installing of the ice making machinery. It is the belief of the promoters that Portsmouth may again be made one of the large fishing centers of the eastern coast and it is their intention to keep the company at Portsmouth concerned entirely.

RUSSIA REJECTS TURKISH PEACE PROPOSALS

Will Not Treat With the Ottoman Government Unless Through Allies.

London, March 7.—Tentative proposals of peace have been rejected by the Russian government, according to reports in diplomatic circles. Information has been received to the effect that Russia refused to receive the offer of the Porte because they ignored the Allies.

MORE RUMORS OF NORTH SEA BATTLE

Activity of the German Fleet Reported and Rumors Flying.

(Special to The Herald)
London, March 7.—A heavy snow storm was raging over the North Sea today and no confirmation was available of reports that a big German war fleet had sailed out of Wilhelmshaven.

In this same connection it was reported from Amsterdam that a number of big German war ships have sailed from the Kelt canal and have taken refuge in the naval base of Zeebrugge, Belgium, where they are continually held with steam up. A Central News dispatch from Holland said that a fleet of 25 German men-of-war was observed Monday in the North Sea, finally disappearing in a northerly direction.

BRITISH SHIP DAMAGED BY COLLISION AT SEA

Harve, March 7.—The British steamer Saxby was in collision early today, suffering great damage. A wireless dispatch to the port authorities states that the ship was leaking badly amidships. She is of 3660 tons and sailed from New Orleans for Harve, on Feb. 2.

Baby Week at G. B. French Co

INFANTS WEAR

Mothers will find the many Baby needs in our up-to-date Infants' Department.

Baby Novelties of newest ideas to be found in our Art Department.

SAVE THE BABIES

To every mother who visits our store this week, we will give a Book on the Care of the Baby, published by the American Medical Association. This is something every mother should own. Come and get one Free of Charge.

Vanta Baby Garments

Have made possible the Pinless-Buttonless Dressing of Baby from top to toe, without once turning baby over. Recommended by the medical profession.

Vests, Bands, Knives, Abdominal Binders, Gertrudes, Slips, Wool Booties, Bonnets, Brush and Comb Sets, Comfort Powders.

L. E. Staples, Market St.

PORTSMOUTH ATHLETIC CLUB WON INTER-CLUB TROPHY

Bowling Match Deciding Game in the Series Between the Elks and P. A. C. Won Last Evening by Score of 3 to 1--Match Followed by Banquet in Grill Room at Home

By taking the first string by one pin the third by 27, and the total pin-fall by 11, the bowling team of the P. A. C. defeated the Portsmouth Lodge of Elks team in the match rolled Monday evening on the Elks' alleys, and incidentally won the deciding game in the series between the two organizations for the ownership of the cup put up by them three years ago. The coveted trophy was turned over to Dr. Staples, president of the Portsmouth Athletic Club, by Ernest L. Chaney, Exalted Ruler of the Portsmouth Lodge at the banquet held in the Grill Room of the Elks' home following the games. The match was witnessed by one of the largest gatherings of bowling fans that the Elks' alleys have held for some time and it was closely contested all the way through. The fine work of Coleman for the P. A. C. team was in a great measure responsible for the winning of the game, he rolling two fine scores in the first and third strings and only dropping to 82 in his poorest, scoring a total of 291, leading the field and beating his opponent by 47 pins. It was Coleman's work which really did the trick for with the exception of Leary, who trimmed his man five pins, each of the other P. A. C. bowlers were beaten. Russell by 13, Wm. Woods by 21 and George Woods by 7, giving the Elks a margin in the total pinfall of 41 pins without Coleman's big lead.

At the end of the first string the P. A. C. team had the string and a lead of one pin in the total. In the second the Elks bowlers came back strong, winning the string and having a lead of 16 for the total.

At this point it looked like the Elks' game and the surprise of the evening came when Coleman came back after rolling an 82 and hit the wood for a score of 161. Leary had gained six of the sixteen pins back from Fogarty but as the Elks had gained 17 in their second string it looked like a hopeless job. Coleman gained 31 pins over Burns in this inning and the lead made by him was not lost although Leason, Healds and Capstick gained eight of them back. The game went to the P. A. C. three points to one.

The summary:

P. A. C.	Elks
Leary..... 101	80
Coleman..... 108	82
Russell..... 91	83
Wm. Woods..... 69	80
G. Woods..... 81	82
Fogarty..... 98	84
Burns..... 85	83
Leason..... 85	101
Healds..... 77	90
Capstick..... 81	77
Total..... 413	427

At the close of the game on the alleys the members of the tennis and those witnessing the game to the number of 150, adjourned to the Grill Room of the Elks and a banquet was served. The Elks lived up to their reputation as entertainers and the dinner was one which left nothing in the line of good food to be desired. It was prepared by the club stewards, Adams and Farrington, under the direction of Roy H. Fogarty and was served under his direction by fourteen volunteer waiters, members of the two organizations. The dinner was excellent in every particular, having been prepared in the club kitchen and everything was perfect, including the service. It was the unanimous opinion of the guests that the dinner was a fitting climax to the series of inter-club games which ended with the bowling match and the passing of the silver trophy into the permanent possession of the Portsmouth Athletic Club.

The menu:

Grape Fruit Cocktail
Celery
Dressed Haddock, Egg Sauce
Boiled Potatoes
Roast Turkey
Giblet Gravy
Mashed Potatoes
Boiled Spinach
Cold Meats
Baked Indian Pudding with Cream
Ice Cream
Assorted Cake
Coffee

The waiters of the Elks were George A. Clough, Edwin Conroy, Charles S. Long, Mitchell Barnes, William T. Call, John T. Pettis, and William Kennedy. The boys from the P. A. C. completing the efficient staff were Horace Gray, Charles Lear, William McDonough, Charles Bruner, Harold Russell, Fred Coleman and Jack Leary.

Charles S. Long was chairman of the committee on arrangements.

Following the serving of the banquet Mr. Chaney presented the trophy to the P. A. C. Dr. Staples accepting it as President of the Club. The cup had been in possession of the Elks for the past year, the Elks having won the leg

in the games in the season of 1915. The P. A. C. had won them in 1913 and in 1911 the series ended in a tie. The winning of the game last evening gave the P. A. C. three points in this year's series as against one point won, and one tied by the Elks.

After the banquet an informal musical program of entertainment was presented, including piano solos by William C. Moltenbrey and Alexander Blumbrück, together with vocal solos and chorus singing.

MORAN AND WILLARD DUBBED AS LAZY.

New York, March 6.—A couple of juries are Frank Moran and Jess Willard, if one is to judge by their ring activity.

Over a stretch of six years Moran has mingled in only 42 battles—average of seven per year. Willard began his career in 1911 and since then has fought 80 times—average six per year.

The older they grow the lazier these two seem to become. In 1913 Moran fought five times; in 1914 but once, while his 1915 record shows only four battles. That's ten fights in forty months—or three a year. Willard fought three times in 1914, just exactly once in 1915. That means four fights in 27 months—an average of less than 2 fights a year.

Willard won 18 of his 30 fights with knockout punches, giving him a batting average of 60. Moran has landed Morpheus about 12 times in 12 starts, making his average a mere 778. There fore Jess wins the slugging championship.

Willard has suffered three defeats, two via the decision route and one on a foul. Moran has lost five times; four by decisions and the fifth by a technical knockout.

Moran met Savage in March, 1911, for days after Moran had fought Al Pulzer, ten grueling rounds. Pulzer had opened the skin above Moran's eye and it hadn't healed sufficiently when the Moran-Savage fracas began.

Savage aimed his attacks on those cuts and so had the blood running into his eyes. In the seventh round the referee ordered nestliness to cease, he caught the blood from the cuts blinded Moran and forced him to grope around in a helpless condition.

Moran was slightly shaded by Tony Ross early in 1913, later that year losing a twenty round decision to Gunboat Smith and a four round bout to Jack Geyer. The latter bout was on the exhibition order and Moran fought the first three rounds. In the fourth he all but knocked out Geyer who got the decision because of his aggressiveness in the first three rounds.

Moran was defeated by Jack Johnson in their twenty round decision bout in Paris in 1911.

Willard lost to Joe Fink in his first fight because he fouled his opponent, and the rules. In 1913 (timid) Smith outpointed him in a 20 round mill while a year later Tom McLaughlin scored a decision over Willard in 12 rounds at Youngstown, Ohio.

After being on the suspended list for nearly a month, the Manhattan A. C. resumes next Friday night, March 10, with Jack Dillon and Fireman Jim Flynn, as the principals in the main bout. The club has been remodeled and under the new seating plan, over six thousand spectators can be accommodated. None of the seats will be more than forty feet from the ring-side.

Billy Gibson took his pen in hand the other day with the following result:

"I have given up hope of ever getting Freddie Welsh to dare to beat my boy Benny Leonard in New York. There is the place where the public could get a good line on the difference between the present champion and a boy whom the experts all over the country claim to be a second Joe Gans. I am prepared to guarantee Mr. Pollock any reasonable figure to have Welsh box Leonard in a twenty round bout for the championship.

"I see, by the papers that Pollock would like to have a ten thousand dollar side bet. I am sure he could be accommodated, should Welsh dare to box Leonard. I will be glad to have Pollock name his figure, and if it is anywhere within reason the match will be made immediately.

"Leonard is matched to box Johnnie Dundee, the second best lightweight in this country at Madison Square Gard-

through with Dundee I am sure that every expert at the ringside will demand a Leonard-Welsh championship contest."

WITH THE SPORTS

Clamp a wreath of laurel for bravery and manliness on the brow of Ed. G. Barrow, the "Man Who Wouldn't Quit" the greatest little battler of them all.

It was Field Marshal Barrow and his little army of international leaguers who had to bear the brunt of battle in the great baseball war. No wing of the organized army was exposed to such a merciless attack by the Feds as were the Internationals. Their playing ranks were depleted time and again by the Federal raiders, and they were driven from two of their eight trenches while a third—Buffalo was rendered almost useless.

It seemed certain death a year ago for the Internationals to keep up the fight. They were forced to battle alone against the huge portion of the Federal army. They sent repeated calls for assistance but those folks were too busy defending their own interests to rush re-enforcements to the Internationals.

Frequently during the days seemingly when the Internationals were being crushed by their Federal foes, some of the Barrow's lieutenants were willing to surrender rather than risk their utter annihilation. But Barrows scorned such a thought.

"We'll win out yet," he retorted. And they did.

To review the baseball war is to realize more and more the wonderful fight that Barrows and his associates put up against fearful odds. Over a stretch of two years they fought with their backs against the wall; fought when it seemed there was not the slightest chance in the world of their winning out. They fought gamely and in a way that has won for them the admiration of the baseball world.

The most terrific of the Federal onslaughts were delivered at the Internationals. The outlaws drove the minor leaguers out of two of their strongholds—Baltimore and Newark. They invaded Buffalo, compelled with the Internationals there, and practically lifted the attendance.

Another blow was dealt by the European war. It affected attendance throughout the circuit. But in Toronto and Montreal, two of the best cities in the Barrows circuit, the gate receipts shrunk to almost nothing. The Canadians are too busy with the war to think about baseball.

The Federal raiders took many of the international stars. Those who remained "faithful" had to be paid huge, almost ruinous, salaries. With the salary list top-heavy and the gate receipts away below, that in other years, the Internationals finished the 1911 season in a bad way.

When it came time to open the 1915 season, and the Feds were still among those present, threatening new threats of raids and invasions, Barrows found that he was almost alone in his anxiety to keep up the fight. Some of the magnates who had suffered huge losses in 1914 didn't fancy renewing the battle and enduring financial jolts.

But Barrows rallied his men. "Don't quit boys," he said. "You've suffered during 1914 and you may do a little more during 1915. But there's an end to all things—and I guess 1915 will mark the end of the Feds."

Barrow's enthusiasm, his optimism, and his fighting spirit again filled the international league magnates, and when he gave the order to charge, they followed him into the 1915 fight.

The war is over and the Internationals still live. They exist today primarily because of the stout heartedness, never-say-die spirit of their leader, and because there were men in the ranks who were sportsmen, who took a chance on being bankrupt in their efforts to win an honest fight; men who fought a gallant battle, and won.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sneezing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

A local ice man said this morning that he had a pond covered with excellent ice but his house was full, having finished his cutting on February 22.

Never can tell when you'll mash a finger or suffer a cut, sprain, burn or scald. Be prepared. Thousands rely on Dr. Thomas' Electric Oil. Your druggist sells it. 25c and 50c.

STRIKES AND SPARES

Gimlet Club Awarded Match by Extra String.

Although the Creek A. C. took two points, lost one and tied one in their game at the West End Alley's against the Gimlet Club last evening, a fourth string was rolled to decide the total pin-fall and was won by the Gimlet Club, 183 to 47. The Creek A. C. defeated their opponents in the first and third strings by margins of 17 and 2 pins, respectively, losing the second string by 19 pins, making the total pin-fall even with 1327 each. The summary:

Gimlet Club	Creek A. C.
McCabe..... 93	102
Hoffman..... 70	102
Powers..... 87	57
Crowley..... 83	88
Dwyer..... 93	88
Total..... 440	455

MILE IN AIR WHEN MOTOR STOPPED

New York, March 6.—Lost in an aeroplane 5000 feet in the air with a dead engine—that is the experience a nation in which young Alexander B. Shaw found himself this morning.

The aviator who is the 18-year old brother of Lieut. William Shaw of the French army aviation corps with his mechanic, John Kane, went up from the Hempstead aviation field at 9:20 o'clock in his Huntington biplane, intending to fly to Governor's Island. He depended on landmarks for guidance and because of the fog that preceded today's snow, was unable to follow a true course with the result that after 15 minutes of flying at the rate of a mile a minute he lost his way.

While circling the heavens hoping to get a glimpse of Governor's Island, the gasoline in the tank of the biplane gave out and the engine stopped. The youthful aviator did not lose his head, however, but started volplaning to the earth in long spirals, but he and Kane on the lookout for a safe landing place. Seen they were able to pick out Central Park and Shaw guided the biplane to the sheepfold, where it is likely he would have landed without mishap had not the left wing of his machine caught in a tree. The car tipped then, but neither occupant was thrown out, and the biplane came to rest on the earth with both wings badly broken on the tipping having thrown the right one against the earth.

Thaw and Kane, stepped from their seats unharmed, though somewhat shaken up and conscious that they had had a narrow escape. Men from the Huntington Aircraft Company at Hempstead where the aeroplane was built, came over. In a truck behind which they towed the disabled machine back to its hangar.

In landing in Central Park, Thaw violated both a city ordinance and a regulation of the Aero club, but, because he had not intended to fly over the city and landed only to save his life, it was not thought probable that any action would be taken against the aviator.

OLD FRIENDS, OLD TIMES

There is no time like the old times. When you and I were young. When the birds of April blossomed. And the birds of springtime sang. The garden's brightest glories. By summer suns are missed. But, oh, the sweet, sweet violets. The flowers that opened first.

There is no place like the old place. Where you and I were born. Where we lifted first our eyelids. On the splendors of the morn. From the milk-white breast that warmed us. From the clinging arms that bore. Where the dear eyes glinted o'er us. That will look for us no more!

There is no friend like the old friend. That has shared our morning days. No greeting like his welcome. No image like his praise. Fame is the scentless ginsflower. With gaudy crown of gold. But friendship is the breathing rose. With sweets in every fold.

There is no love like the old love. That we courted in our pride. Though our leaves are falling, falling,

And we're fading side by side; There are blossoms all around us. With the colors of our dawn. And we live in borrowed sunshine. When the light of day is gone.

There is no time like the old times— They shall never be forgot! There is no place like the old place— Keep green the dear old spot! There are no friends like our old friends— May heaven prolong their lives! There are no loves like our old loves— God bless our loving wives! —Oliver Wendell Holmes.

DAINTY FASHIONS THAT ARE NEW

A cutaway bolero is one of the latest features. The new Puritan lingerie collar is very charming. High crowned hats will be a feature of spring millinery. Silk suits are coming into favor for spring. Pink haptiste is now being used for nightgowns and combinations. The winter gown may be freshened by the addition of a straight little overhuck of chiffon or lace. Suit jackets are somewhat shorter. They have belts and pockets; also flaring tails. The spring turbans are not worn straight on the head but slightly on one side. There is simply no end to the usefulness of ribbon in making clothes pretty.

Miles of ribbon are being used for

THE BOSTON FIRE FROM CLERK HAZEL'S RECORDS

With all due respect to The Firemen's Standard, "Old Times," former Mayor Thomas E. O. Marvin, and other writers who have been interested in the part taken by Portsmouth firemen and the members of the crew of Kearsarge No. 3, Fire Engine Company, the following copy from the records of the Kearsarge Company may prove interesting. This is a true copy of the story of the part played by the forty men who went from this city to the assistance of the Boston Fire Department on Nov. 10, 1872, a true story of the work performed by these men. The record was written by the late William S. Hazel, clerk of Number 3 company at the time of the fire and for many years after.

Mr. Hazel was one of the most careful clerical men in the city, was respected for his accuracy and truthfulness and as the record was written in the company's book on Nov. 11 by Mr. Hazel, the day following the fire, it should be given every consideration for its accuracy. Mr. Hazel left nothing to memory. As soon as the company returned to this city he wrote his story and this record was approved by the Board of Fire Engineers at their next meeting, held on Dec. 8, 1872.

An alarm of fire roused the citizens of this city from their slumber Sunday Nov. 10th, 1872, at 2:05 a. m., caused by a telegram from Boston, Mass., (which was in flames) asking for aid.

The telegram was received by the Capt. of the "night watch" at 1:30 a. m. who immediately informed his Honor Mayor Marvin of the fact, whereupon he summoned Chief Engineer Stephen L. Marston who gave orders to sound the alarm. The "Firemen" rallied promptly, but on their arrival at their several "Engine Houses" were informed that "Kearsarge, S. F. E. Co. No. 3, only was wanted." The Kearsarge boys started for Dover St. to ship their machine and hose carriage, the machine being hauled by the members of the several companies, on account of the "horse disease" which was prevailing in the city. The "Kearsarge boys" proceeded in an orderly manner as possible to the above named street where they loaded their machine and started for the scene of "contagion" at three o'clock a. m. Capt. J. C. Seymour in command, accompanied by his Honor Mayor Marvin, Chief Engineer Marston, Asst. Engineer F. W. Ham, Ex-Chief and Foreman of Kearsarge James A. Waterhouse, Sec. of Engineers Willis L. Holden, Editor of the Chronicle George W. Marston, Ex-members of the Kearsarge, John P. Bridges, Charles W. Coleman, Fred P. Folsom, Albert H. Tucker, Police officers Deverson and Wallace, six members of Dearborn Steam Fire Engine Co. No. 1, five members of Sagamore Steam Fire Engine Co. No. 2, one member of Gov. Langdon Engine Co. No. 5, one member of Atlantic Company No. 6, five members of Garibaldi Hook and Ladder No. 1, arriving in Boston at 4:45 a. m.

On our arrival in Boston we proceeded to Washington St. where we reported to an Engineer of the Boston Fire Department, who conducted us to a reservoir on Court Square, we equipping with the order proceeded to lay our line of hose through Court Square, City Hall Avenue, into School, through School into Washington, to the Boston Transcript Bldg. where we adjusted our pipe and our "Chief" through our Captain gave the order "Hay away three," we playing through 1000 feet of hose.

When we began to play quite a number of streams were endeavoring to reach the roof of the high buildings on Washington St. but failed. Our chief gave us the order to reach the roof, with our stream which we did, causing a round of cheers to rent the air from the Boston firemen and citizens. We did some efficient service in the neighborhood of the Transcript Building for a number of hours when his Honor Mayor Marvin informed us that breakfast was waiting us at the Tremont House, we going in squads so as not to stop the working of the engine.

After breakfast we exerted ourselves to save one of the old landmarks of Boston, "The Old South Church." While we were endeavoring to stop the fire from communicating with the Old South the walls on the opposite side of Milk St. fell, which buried three firemen from Worcester, Mass. We immediately directed our stream on the fire heated bricks which covered the unfortunate firemen; one of our members in the meantime jumped to extract them from their perilous situation, which he, with others, succeeded in doing, and carried them to the second police station, where one of them died in about two hours. The same wall came very near burying one of Dearborn No. 1 boys by the name of Charles E. Foote, he being inside of the building when it fell.

During the forenoon the fire began to rage in the vicinity of State St. whereupon we were ordered to lumber up and proceed to that vicinity for duty, but on our arrival there it was ascertained that we had no hydrant connecting coupling; therefore, they ordered us back to the corner of Washington and Milk St. where we put on two streams and finished the work of saving the Old South Church.

We played in the vicinity of Milk St. until half past three. About three p. m. his Honor Mayor Marvin again came to us and reported that dinner was waiting us at the "City Hall Dining Room," we as in the morning, going in squads, while the first squad was in to dinner we were relieved from duty and informed that we were at liberty to start for home.

While we were lumbering up a photographer came and asked permission to take a photograph of the engine and company, which was granted. After we lumbered up those that had not been to dinner dined at the "Shumway House." After the wants of the inner man had been supplied the order was given "Man the ropes three" which we did and started for home.

On our arrival at the Eastern Depot in Boston we proceeded to load our machine and hose carriage. While we were waiting for the train to start for home a train arrived from Portland, with a carload of Portsmouth firemen and citizens. On their arrival they informed us that there was something in the baggage car for us. Our Chief gave orders to haul it out which we did promptly. On examining the barrel and box (which the packages proved to be) we found them full of crackers and cheese which we weren't long in doing ample justice to, remembering those at home who sent them.

About six p. m. our Chief informed us that he had made arrangements to have us started for home immediately which we found to be true and started. On our route home we were cheered by the throng of people who crowded at the several stations.

We arrived home at quarter past nine p. m. Arriving at Portsmouth we met the Eben Simpson Steam Fire Engine Co. No. 2 of Biddeford, Me., on their way to Boston for duty. After our arrival at the depot we proceeded to Dover St. where we unshipped our machine and hose carriage and started for our engine house. In an orderly manner.

We arrived home hoping we had done ourselves credit as a company and to the city which we represented. Signed WILLIAM S. HAZEL, Clerk.

Portsmouth, N. H., Nov. 11, 1872.
Approved Dec. 8, 1872 Board of Engineers.

has faced since war broke out. The last year and a half, a period of incalculable value has been absolutely lost through Daniels' failure to grasp the advent of this nation's crisis. Many deplorable defects in the navy might have remedied in that time if Daniels had not been in the wake of public sentiment, an unwilling proselyte to preparedness.

"Instead of unbuilding the efficiency of the navy his hobby has been rather the pedagogic programme of naval officers teaching naval lighters reading 'rifle' and 'rifle'." This programme has led us away from the preparedness that would mean so much to the country at this moment.

"Many of the conditions I have enumerated might have been remedied or ameliorated during that time. Now what can be done at this eleventh hour? The remedies lie first with Congress. Nothing would make a better impression or do more good than the instant authorization of a general staff. Add to this the authorization of a national council of defence, an increased naval enlistment of 50,000 men and the passage of an immediate act to build four battle cruisers at a speed of not less than thirty knots.

"It will do no good to enlarge the congressional naval appropriation with out enlarging the personnel. That would only increase taxes on the public not efficiency or preparedness in the navy.

"The first thing the Democratic Congress did when it came into power in 1911 was to go into caucus and vote no battleships."

"It is a fact that the Government hasn't even started to lay the keels of the two battleships authorized by the last Congress, and it takes three years to build these fighters. Every battleship that has been launched since Daniels took office, including the just launched and tested superdreadnought Pennsylvania, was authorized by the former Administration.

"It is a fact that the navy has not one up to date mine for the protection of the harbors on our coast. The navy is a great corporation, spending \$150,000,000 of the people's money every year. Its finished product is efficiency. The public can judge that efficiency only as a national crisis brings disaster or success.

"What if one of these great new steel combinations announced that it was headed by a man of no experience in the business and that his first act was to disrupt the organization and put the paddlers and huskies to erecting lightships instead of heaving logs? How many shares of that company's stock would the public buy?"

"The analogy and inference I leave to you. The President can remedy these short-comings. I do not think it would be seemly in me to say that Mr. Daniels should be ousted, especially since there are many others to say it in my stead."

HAIR COMING OUT?

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderruff at any drug store, put a little in your hand and rub it into the scalp. After a few applications the hair stops coming out and you can't find any dandruff.

AT ONCE! STOPS STOMACH MISERY AND INDIGESTION

"Pape's Diapepsin" makes sick, sour, gassy stomachs feel fine.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, let this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food, your head clears and you feel fine. Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any stomach disorder.

POLICE NEWS.

At the meeting of the Police Commissioners held at City Hall on Monday evening Duncan McLean was appointed to the vacancy in the department made by the resignation of Officer Robinson. The appointment takes

BIG LINER SINKS WITH 338 PASSENGERS LOST

London, March 6.—The Spanish steamship Principe de Asturias, a 10,000-ton passenger liner, has been sunk according to news received here tonight. Of the passengers and crew, 415 are missing and are believed to have been lost. Of these, 338 were passengers and 107 members of the crew. The vessel plied between Buenos Ayres and Barcelona.

It is not known whether there were any Americans aboard the Principe de Asturias, and the Admiralty has not announced the location of the disaster. A Lloyd's dispatch from Santos at first stated that the steamship had been blown up, presumably by a mine or torpedoed by a submarine, but later notices tonight announced that the Principe de Asturias had struck a rock and gone down.

DUTY TO KEEP OFF ARMED VESSELS

BRYAN SAYS CITIZENS MUST CONSIDER COUNTRY'S WELFARE AND INTEREST OF HIS FELLOW COUNTRYMEN.

SPRING POEM BY A CONVICT

Atlanta, Ga., March 7.—Spring has reached the Federal prison here and is heralded by Logan P. Martin, the convict poet as follows:

QUEEN SPRING

When the apple trees are blooming,
And the atmosphere perfuming,
And the birds are making music in the air;
It is then I feel like shouting
When I take my daily outing,
And behold the charms of nature
Everywhere.

When the sun is softly blazing,
And the cattle are all grazing
On the new born pastures clothed
In living green;
And the children all are dancing
To the music so entrancing
It is then I swear allegiance to my queen.

When the baby lambs are skipping,
And the honey bees are sipping
At the fountain on the morning-glory vines;
It is then my soul will sing
To the glories of Queen Spring,
Filled with nature's most intoxicating wines.

When the frogs begin their clinking,
And the poet takes to rhyming,
And the turkey gobblers thunders
With his wing;
And bold chivalreous calls shrilly
Through the long night watches ally,
It is then I pay all homage to Queen Spring.

When the lightning bugs are shyling,
And the whippoorwills are sighing,
And the mocking birds are flirting
As they sing;
When the silent stars are beaming,
And I fall to mystic dreaming,
It is then I pray aloud, God save Queen Spring.

GINGLES' JINGLES

INTELLECT AND MUS.

The reason why we don't succeed is not a myth to us, the fault is ours, for we have got the intellect and mus; we strike our golf and hit 'er up, it seems we're winning out, but soon the bug gets down, and our club is turned to doubt. Some folly or homo pleasurable lopes along and ceps the game, and we are skidded down a few, and listed with the lame; remorse then grabs the place of thrift and sits upon the throne—we're not the busy bee of old, we're likened to the drone. The trouble is we'd rather flit along the giddy path than get right down to good hard work, and be like him that hath; and it we're honest with ourselves, one thing we must confess, some little pleasure always stands between us and success. But are we thus to gallop through this vale of care and strife and leave the world no better as we beat it on through life? Is anything more useless than the bunch that loaf and roam, and use their spineless frames for naught; but fit nays for their domes? We'd better shake the cranky van, and get the modern bus, and show the world we still are there with intellect and mus.

Under the new rules, the fraternities shall present to the Casque and Casket the names of the students they intend to send invitations to on Sunday preceding the second Monday in May. The Casque and Casket then sends to these

At a meeting held Monday evening in the rooms of the Portsmouth Trust and Guarantee Company by the Portsmouth Country Club, the following were elected as a nominating committee for the ensuing year—George B. Lord, John M. McPhee, Lawrence G. Fryer, Frank A. Holden and William J. Carter. The meeting was presided over by Jackson M. Washburn, president of the club.

COUNTRY CLUB ELECTED NOMINATING COMMITTEE.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the family system tonic. Price, \$1.00.

The laxative tablet with the pleasant taste. If you are bilious or constipated They keep your System as clean as a stone jug rinsed with cold spring water.

students uniformly worded invitations and the students present themselves before the Casque and Casket the next day prepared to give formal answer to the invitation. The answers are to be written on a form card and deposited in a sealed ballot box before 5:30 o'clock in the afternoon. No student shall leave the room until his answer has been deposited, and only those who have received invitations, and the members of the Casque and Casket will be allowed in the room.

No student, furthermore, who has been invited and has accepted it to be initiated until he has passed 13 hours of college work.

This will have been determined by May as the first college semester ends in January. The fraternities also agree that they will not allow any student to board or room in fraternity houses before he has been pledged to join one of the organizations.

The Casque and Casket is, of course, neutral and contains representatives from each of the Greek letter fraternities here.

Manager W. J. Nelson of the New Hampshire baseball team announces the following schedule. One of the features of the new list of games is that with Dartmouth at Hanover early in April.

April 11—University of Maine at Durham.
April 18—Dartmouth at Hanover.
April 20—Norwich at Northfield.
April 21—Middlebury at Middlebury.
April 22—Vermont at Burlington.
April 23—Worcester Polytech at Durham.
May 7—Dartmouth College at Durham.
May 8—Brown at Providence.
May 9—Rhode Island at Kingston.
May 9—Norwich at Durham.
May 13—Rhode Island at Durham.
May 17—Lowell Textile at Lowell.
May 20—Bates at Lewiston.
May 24—St. Anselm's at Manchester.
May 27—Connecticut State at Durham.
May 30—Springfield Y. M. C. A. at Durham.
June 6—Worcester Polytech at Worcester.
June 13—Sophomore Freshmen.

INTERESTING SERVICES AT ST. JOHN'S To Be Held During the Lenten Season.

7:30 p. m. Evening Prayer and address.

TEN TRANSFERRED FROM U. S. S. WASHINGTON.
The work of distributing the crew of the U. S. S. Washington, which is to go into reserve at once by orders of the Navy Department, is already under way. Ten members of the crew were transferred on Monday, the orders coming in the afternoon. The men are assigned to duty at several different points in the service with the Atlantic and Pacific fleets.

The members of the crew of the U. S. S. Southard were also transferred to duty elsewhere by orders received at the Portsmouth yard from the department at Washington.

RUB RHEUMATIC, ACHING JOINTS AND STOP PAIN

Instant relief with small trial bottle of old, penetrating "St. Jacob's Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacob's Oil" right into your sore, stiff, aching joints and relief comes. Instantly, "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and cannot burn the skin.

Lumber up! Quit complaining! Get a small trial bottle of old, honest, 75¢ St. Jacob's Oil at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacob's Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.

ANY GENTLEMAN

(Chicago Herald)
Any gentleman can swear, get drunk, tell stories that would lower him in the estimation of his mother and wife, and go where he would be ashamed to be seen by the boy he loves—but he won't. Any gentleman can drive a sharp bargain; he can take advantage of the other man's necessities; he can drive him into a corner; he can rub his hands gleefully and say to himself, as he sees him writhe, "Business is business"—but he won't. Any gentleman can kick a dog, abuse a horse, misuse a child, laugh at another man's mistakes and devilishly gloat over another man's failures—but he won't.

Any gentleman can grow cynical, sour and pessimistic; he can feel that everybody is against him and his against the world; he can scoff at all good things, ridicule religion and damn your judgment—but he won't. Any gentleman can say harsh, sarcastic and cruel things; he can crush flowers and fertilize weeds; he can stink you with words—but he won't. Any gentleman can make this old world, this topsy turvy, this greatly misunderstood world, a far better place because he chooses to pass along this way—and he will.

"U AND I" CLUB DANCING PARTY
An enjoyable dancing party under the auspices of several young ladies, under the name of the "U and I" Club, was held last evening in K. of P. hall and was attended by about fifty couples. Refreshments of ice cream and cake were served at intermission.

DANIELS AGAIN ATTACKED BY GEORGE VON I. MEYER

New York, March 6.—George von I. Meyer, Secretary of the Navy under President Taft, said in an interview that the efficiency of the Navy had been destroyed by Josephus Daniels and that "if war should be declared tomorrow it would be absolutely impotent to check the invasion of our coast." He declared that the Daniels program had led the country away from instead of toward preparedness. "Congress is talking war," said Meyer. "Thanks to Mr. Daniels' incompetence war tomorrow with any one of four European nations would find the way open to our enemy. The public has not yet realized the deplorable condition of our navy. Its confidence has not been fully shaken. But I say to you that demoralization already has attacked the personnel because military efficiency has not been Daniels' goal. Let us draw the indictment.

"Our Navy has no organization prepared to act on a war footing. It has no tested war plan. It has no tested mobilization plan.

Sheep Farming in the East.

There should be interest among farmers, especially those located in grazing sections, in the attempt to be made by Commissioner of Agriculture Charles S. Wilson to stimulate the sheep-raising industry. He realizes, as do all having even a cursory knowledge of farming conditions, that there are many sections of the eastern states which are better adapted to sheep raising than to anything else, and yet on these splendid grazing lands there are few sheep. Small flocks are to be found here and there, but the sheep industry in the eastern states is and has been for many years at a very low ebb.

Commissioner Wilson finds that in New York state there are only about 500,000 sheep, while there is abundant room for 10,000,000, and believes that the revival of the sheep industry offers a field for profit if taken up in the right way. With many others he believes that dogs are largely responsible for the practical extermination of the sheep industry in the eastern part of the country, and would greatly reduce, if not entirely abate, the dog nuisance by taxing dogs at a rate that would result in lessening their number to such an extent that they would cease to be the menace which they are today.

With dogs as numerous as they are the small and unguarded flock of sheep is exposed to constant danger. Not only are many sheep killed every year by vicious dogs, but the flocks attacked are so demoralized as to be practically worthless, and the farmers who formerly kept sheep have become discouraged and gone out of the business to such an extent that where sheep were once plentiful they are now almost a curiosity.

There have been a few attempts to establish ranches in some of the grazing sections, on which sheep could be kept in large numbers and suitably guarded. However, it looks as if the solution of the problem may lay in that direction if profitable sheep husbandry is ever to be restored to the eastern part of the country. In some of the New England states there are whole townships that might profitably be put to such use. These lands could be bought up by investors and stocked with sheep, and the business could be conducted on a scale which would warrant the employment of shepherds to guard the flocks against the ravages of dogs and other enemies. In view of all the conditions it looks as if this were about the only way to cover the old feeding grounds with the flocks that should be upon them.

The cause of labor unionism moves steadily and grandly forward. Shorter hours and higher pay are no longer the only issue. The Molders' Union of Worcester, Mass., has decreed that hereafter its members must wear dress suits at social functions, and it is hoped to extend the innovation to other unions. Employers are hoping, however, that the time will never come when their men will report for work in dress suits.

It is said that numerous members of the Welfare League in Sing Sing prison are planning to locate in South America after their release to begin life anew amid new surroundings and free from the environment of their criminal careers. It is quite possible that this will be a wise move on the part of men with the grit to make it, and certainly those who do will have the best wishes of all for their success.

Rev. Dr. J. L. Jones, who was a member of the Ford peace expedition, has returned home to fight, not for preparedness, but for "preparation." It is his idea that what the world needs is an international police force to keep the peace, and it is for the establishment of such a force that Dr. Jones is to fight. It would seem that the place for him is in the ranks of the League to Enforce Peace.

It is reported that an attempt is to be made to fly around the world in fourteen days in a great hydro-aeroplane, which is already under construction. This is an ambitious program in spite of the fact modern developments long since threw Jules Verne's "Around the world in eighty days" into the deep shade.

Brigadier General Edwards says that under present conditions the coast fortifications of the Panama canal zone are more of a danger than a defense. Pitiful indeed is the helplessness of this great country. One would almost be led to fear that there will be no firecrackers for the boys next Fourth of July.

Henry Morgenthau, United States ambassador to Turkey, who is home on a leave of absence, considers America the umpire of the war. If it is, the country is in a very responsible position and one that by no means is immune from assault.

March entered with dignity and decorum. But there are great possibilities in the month of March, as is evidence already in the storm of Monday and Tuesday.

REPUBLICANS MAKE BIG GAINS IN MAINE

Lose One City But Gain Three Others in City Elections.

Portland, Me., March 6.—Ten of Maine's cities today elected seven Republican mayors and eight Republican city governments. The Republican party lost one mayor and one city government, but retailed by taking from the Democratic column one mayor and three city governments.

The Republicans gained Hallowell which, although nominally Republican has been in Democratic control for the past five years. They gave in return for Hallowell the city of Rockland, where they have been in control for the past year. Republican mayors were elected in Auburn, Eastport, Ellsworth, Hallowell, Saco, South Portland and Waterville. Both Lewiston and Rockland elected Democratic mayors. Republican city governments will have control in Auburn, Bath, Eastport, Ellsworth, Hallowell, Saco, South Portland and Waterville, leaving to the Democrats Lewiston and Rockland.

To the Republicans the most gratifying victory of today's balloting was the wiping back of the city of Hallowell through the election of John M. Robinson over Samuel G. Oles who was seeking the mayoralty election for a third consecutive term, and giving the new mayor the support of a Republican city government.

The loss of Rockland which rather off-sets the Hallowell victory of the Republicans is laid at the door of the so-called "blue law" enforcement which has prevailed there of late.

While the Republicans elected their government in Waterville "without much effort," they found a bigger fight for mayor on their hands and although the election board declared Col. Frederick B. Boothby elected by a margin of two votes, the first reports from the city said that Ora A. Meader, Col. Boothby's Democratic opponent had been elected by eight votes. It was unofficially announced from Democratic headquarters at Waterville, following the decision of the election board, that an inspection of the ballots would be asked for with a view of seeking a recount.

Portland was keenly interested in the outcome of the Waterville election as Col. Boothby, who has but recently taken up his residence there, had previously served Portland as its mayor for three consecutive terms.

NAVY YARD NOTES

Vessel Movements

The Birmingham has arrived at Mayaguez.

The Castle at La Romana.

The Deaver at Corinto.

The McCull at President Roads.

The Maryland at San Diego.

The Mayflower at Washington.

CURRENT OPINION

President Vested With Greater Powers Than Monarchical Sovereigns.

The constitution vests great powers in the presidential office. All strong presidents and some weak ones may make such use of these powers that the powers really will exceed those exercised by any sovereign on earth.

Not only is it true that the president has more power than any sovereign in the world, but I have every reason to believe the American people want him to have this power. I do not recall a single instance in our history when the people did not support the president, even when it was plain that usurpation of power was resorted to—usurpation or something marvelously akin to it.

Secrecy seems to be a great augmentor of power. I do not know of any other government so secretive with reference to foreign relations.

There may have been a time when secrecy in this regard was essential. But that time has passed. Today in the United States we ought to do away with all this ominous secrecy.

If we truly believe in a democracy we ought to be willing to trust the people with these vital issues—issues which may involve sacrifice of life and the shedding of blood upon fields of battle.—By William E. Borah, Senator from Idaho.

UNITED STATES MUST BACK PRESIDENT

"If We Don't We Forfeit the Respect of Mankind," Says Sutherland.

(Special to The Herald)

Washington, March 7.—Senator Sutherland, Republican, of Utah, declared on the senate floor today that the United States must back up the president.

"Unless it is willing to forfeit the respect of mankind, or unless it is to be a craven thing, 'I for one,' he said, 'am becoming sick and tired of the spineless policy of retreat and scuttling policy, that among other things has ordered our people to abandon their rights in Mexico and that has made us flee our plain duty in the Philippines. Instead of forever telling our people to run, I should like, for one to hear somebody bid them stand, with the assurance that their government will stand with them.'"

It is a very fair statement of a great truth when you state "It is a foolish man who will quarrel with his bread and butter, and who will not stick to his job in preference to his bottle when it comes to a show-down." But if this kind of a man is a fool, what are the people, intelligent people, who will allow this devilish traffic that damns manhood, motherhood and childhood, to go on until, as the editorial states, for business-sake employers compel them to remain decent at least during their working hours. Of course, the employer not having to live with the man during his unemployed hours does not care so much what the man may do, but should not the men of the country protect the defenseless homes that must put up with such men during their leisure hours.

Why not protect the wife and the children, even if not for economic reasons; let us do it for humanitarian reasons.

In the editorial a question is asked as follows: "Would it not be remarkable if after all the writing and lecturing that have been, and are being done, business should prove to be the strongest force for temperance?" Indeed it would not only be remarkable, but it would be a disgrace to the town, state, or nation, that was so commiserated as to allow this to be true. But on the other hand, this thing is certain: that business would not be furthering temperance today if it had not been educated to this point of view by our schools, our writers and from our platform. Is the "Almighty dollar," as it has been called, to control our moral reasoning? Is peace and prosperity in our homes of less value than the dollar? If so, let us hide ourselves in a modern Cave of Adulm from all causes which do not effect us in dollars and cents. Let us worship the dollar as an idol and put it before everything else.

This would, on the very face of it, show itself to be all wrong, and for the sake of ruined homes, broken hearts, starved and half clothed children and the ruin of every principle of manliness, let us put an end to this abominable traffic, not for money's sake, but for the sake and in the name of the defenseless homes of our land.

WM. M. FORGRAVE.

THE DAILY NEWSPAPER

EVERY YEAR

EVERY MONTH

EVERY DAY

DON'T TAKE SOMETHING ELSE.

When you want a particular brand ask for it by name and insist on getting what you ask for.

Don't take "something just as good."

It is not up-to-date store-

keeping to offer it to you. You are right in viewing the attempt with suspicion.

Getting what you ask for means satisfaction to yourself and air play to the manufacturer and merchant.

First Church, Newton, "Have We Outgrown Religion?"

April 9—Rev. P. B. Bridgman, missionary traveler, "At the Hub of South Africa."

April 16—Palm Sunday, "The Story of Holy Week," told with the stereopticon.

April 23—Easter Cantata.

April 30 and May 7—To be arranged. May 14—Rev. R. C. Falconer, Dartmouth College Church, "The Christian's Social Creed."

The evening offerings will be used for the expenses of these services. The interest and attendance of all persons not worshipping elsewhere is cordially invited.

ELIOT

Mr. and Mrs. Laureston L. Gould of South Eliot celebrated another anniversary of their marriage last evening. The celebration took the form of a family and friendship gathering. At 6:30 all repaired to the dining room where supper was served. The menu consisted of mashed potatoes, cold meats, Delmonico potatoes, salads, relishes, bread, cakes and ice cream.

After supper the rest of the evening was passed socially. All departed for home at a late hour, wishing Mr. and Mrs. Gould many happy returns and as good a time next year.

HEARING AND SEEING.

The Ear and the Eye and the Power of the Brain to Memorize.

Is the ear more retentive than the eye? Are we more impressed with what we hear than with what we see? There is a familiar legend of Macaulay reciting a good part of "Paradise Lost" during a voyage to India and of the historian's ability to rise from a book and repeat word for word what he had read. There are also records of John Stuart Mill's ability to remember the printed word.

But the balance of evidence seems in favor of the power to memorize that which passes through the ear into the brain. "Memory" Woodfall, who lived in the latter part of the eighteenth century, could attend a debate and report it exactly without notes, a pure feat of aural memory. Tossani can conduct a number of difficult operas without the score before him. Thomas Beecham, the London orchestra leader, conducted from memory Strauss' "Rosenkavalier" upon twenty-four hours' notice. Von Bülow is said to have memorized a Stanford symphony on the train between Hamburg and Berlin and to have conducted it without the score in the latter city. Dr. Kuusvaala can conduct from memory a large number of orchestral works, with all their nuances of interpretation. It is a question for the psychologist. The popular verdict probably would be in favor of the prowess of the ear rather than of the eye. There are a large number of people who can recollect an air exactly, but to whom the printed word is an evaporated thing as soon as it passes from their eyes.—Cincinnati Times-Star.

MURDER WILL OUT.

"The Best Laid Schemes of Mice and Men Gang Aft Agley."

Once upon a time there was a lady who wished to have her real age kept a secret. In order to get away with it she instructed her son, in case any one asked how old he was, to knock off about 50 per cent.

She told people the boy was large for his age and explained the gruff tones of his voice by saying that his tonsils needed attention.

One day the rector of the church called, and while waiting in the drawing room for the lady to put the finishing touches to her makeup he talked with the boy, who was pretending to read "Little Lord Fauntleroy" for the seventeenth time. The boy volunteered the information that the next day would be his birthday.

"Ah," said the rector, "and how old will you be then?"

"Ten years old," replied the boy, as per instructions.

"Indeed," said the rector, "I dare say you haven't any idea what your mother is going to give you for a birthday gift."

"Oh, yes, I have," was the unexpected answer. "She promised to give me a safety razor."

When the rector rushed into the hall to see what had caused the loud crash he had heard he found the boy's mother lying on the floor in a dead faint.

Moral.—Old Father Time calls all bluffs.—St. Louis Post-Dispatch.

The Rat and the Bulb.

According to the French naturalist De Parville, a gardener planted one afternoon 250 tulip bulbs on a terrace, and next morning he noticed that the ground had been disturbed and that the bulbs had all been taken away. He was confident that rats had done the work, and, taking a spade, he began to dig in the hope of discovering their nest. Soon he unearthed a large female rat, which he killed, and after digging a few more minutes he discovered an underground chamber lined with hay and leaves and connected by a corridor with two holes, which were evidently used as storehouses, for in them he found the 250 tulip bulbs. This was remarkable, but more remarkable was the fact that they were neatly arranged in two rows and that not one of them had been gnawed or otherwise injured.

NO GERMAN CRUISER CAN MENACE COMMERCE

Announcement Made in House of Commons—English Navy Increased by More Than Million Tons.

(Special to The Herald)

London, March 7.—"No German cruiser is in a position to menace British commerce" on any ocean of the world at this moment. This emphatic statement of British domination of the seas was made in the House of Commons this afternoon by Arthur J. Balfour, first lord of the admiralty. It evoked cheers from all parts of the house. Preliminary to introducing the naval estimate for the coming year Mr. Balfour discussed at length the status of the British navy and the work it had accomplished. He announced that since the war began the personnel of the navy had been doubled and its actual strength had been increased by more than a million tons. He explained this increase by saying it reached its home port by sailing around Iceland. His announcement to this effect was the first official announcement in England that the German raider had reached a home port.

FRANCIS CONFIRMED BY SENATE

Washington, March 6.—President Wilson's nomination of David R. Francis of Missouri to be ambassador to Russia was confirmed today by the senate a few hours after it had been received from the White House. At the same time Joseph H. Ship of Indiana was confirmed as ambassador to Chile. Mr. Francis who served as secretary of the Interior under President Cleveland will succeed George T. Mayo of Petrograd.

Mr. Mayo recently resigned, saying that the Russian climate was undermining his health. The ambassadorship is considered particularly important by President Wilson because of the additional duties thrust upon the embassy by the war, including the care of the interests of the Central Powers.

The post as ambassador to Chile was made vacant by the resignation of Henry Prather Fletcher to become ambassador to Mexico.

FASHION FADS

A great deal of floral and ribbon garniture is seen on millinery. A new circular cape on each shoulder is one of the new ideas.

The chief characteristic of the new silk jackets is their softness.

The new blouse sleeves sometimes show underparts of fine net or lace.

A blouse of transparent material striped with gold is very charming.

Princess are introduced in modernism on many of the new dresses.

The bolero which may be a big feature of spring styles, is effectively used new and then on midwinter frocks.

The fleche, which is used on many frocks and hosties, is usually finished with a ruffle, a scalloped or some other fancy edge.

A charming frock for a child is of sheer white organdie made with a full bodice gathered into a full skirt which is nothing more than two very full ruffles. Point is given this simple frock by a wide mesh tied in the back in a large bow.

DOVER AMATEURS
IN MINSTRELSY

Several Portsmouth People
Witness the Performance.

A packed house greeted the Knights of Columbus at Dover on Monday evening when that organization presented its annual minstrel show at the opera house. The performance eclipsed all previous efforts on the part of the amateur minstrelsy, and the people of Dover and the surrounding towns witnessed a high class entertainment.

The work of the company throughout is a credit to Dover and the Knights of Columbus. Every song was catchy and each number well rendered. The mixed chorus did some excellent work. The dancing of a dozen or more young ladies was equal to that of professionals and showed some fine training on the part of the instructors in charge. A better or more pleasing exhibition of up-to-date minstrelsy cannot be duplicated before the footlights in Dover or any other city in New Hampshire.

Among the audience were the following from Portsmouth: Walter H. J. Houch, John C. Dolan, James P. Griffin, John Carberry, P. J. Browne, Thomas Palmer, Walter Stratton, John Reddin and James Lawless.

REAL ESTATE TRANSFERS

The following local real estate transfers have been recorded for the month of February:

Fred L. Shaw to Waldo Pickett, land on Sagamore avenue.

Lucy H. Caswell to J. H. and M. P. Clifford, house and land on South street.

James Fry to Alfred H. Goodwin, house and land, Holmes Court.

Sau Shapiro to Arthur W. Schurman, buildings and land on Market street.

Harry B. Prior to Roy W. Dixon, house and land on Union street.

J. Howard Grover to Julia A. Leary, house and land on Austin street.

Valentine A. Hett to Doreen H. McIntosh, buildings and land corner of Fleet and Porter street.

Peter Allen to George P. Smallwood, house and land on Lincoln avenue.

Frank Knight to Albert H. Hlop, buildings and land on Congress street.

SMITH APPOINTED AT EXETER

Thomas Smith of Exeter, on Monday afternoon received notice that his nomination for the Exeter postmaster's office, to succeed Postmaster Daniel Gilman, had been sent to the senate by President Wilson and in a short time he expects to receive the appointment.

The postmaster's office of Exeter has long been of interest, as Mr. Gilman's term of four years expired on Feb. 6.

Constipation causes headache, indigestion, dizziness, nervousness. For a mild, opening medicine, use Doan's Regulators, 25c a box at all stores.

NEED SEVEN SHIPS TO EQUAL GERMANY

Admiral Fletcher Gives Some
Comparisons of the Two
Navies.

Washington, March 6.—Three dreadnoughts and four battle cruisers added to the American fleet built and authorized would make it the equal in fighting strength of the present German fleet. Admiral Fletcher, commander of the Atlantic fleet, declared today before the house naval committee.

While Germany has seven battle cruisers and the United States none, the admiral said the 35-knot craft proposed by the navy department would be so much superior to anything now afloat that four of them, possibly three would more than offset the seven German boats.

With the present fleet of 42 battleships of all types, three additional dreadnoughts, and seven battle cruisers, Admiral Fletcher thought "we could reasonably expect to make a good defense, although not an absolute one," of both coasts against any combination of two enemy powers that did not include Great Britain.

The admiral said that he and a majority of the higher officers of the navy disapproved the personnel boards proposal to substitute promotion by selection for the seniority system. He said that if the President were authorized to transfer four per cent of the captains, commanders and lieutenant commanders to the reserve list, employing them in consular work abroad, as instructors in military schools, or in other work for the government the way for promotion for efficient officers would be open without additional expense. The present system of selection for high commands and bureau heads, he said, provided a sure way of putting the right man in the right place.

Admiral Fletcher thought that the training and education of all navy officers was so nearly identical that to make selection among the officers in any grade of those qualified for promotion, as proposed would be a difficult task. There was little to choose among 20 per cent of the men in any grade, he added, all being required to be experts in many subjects such as seamanship, gunnery and engineering and to have in addition a knowledge of international law beyond that of the average lawyer. As a natural process, he explained, men now specialized along the lines to which they felt the most attraction and were appointed to posts that would get the best results for the navy from that study.

KITTERY

Harry Paul has moved his family from Elliot into Miss Lovell's house on Simpson street.

Mrs. W. S. Crammer, Miss Valentine Tobey, and Mrs. Harry Tobey were the guests of Mrs. J. P. Boyer of Ferry lane Sunday.

Samuel Edwards is still restricted to his home on Main street by illness.

The regular meeting of Eastern Star will be held Wednesday evening in Wentworth hall.

Mrs. Walter Ball is quite ill at her home on Otis avenue.

Mrs. George Crowell is able to be out again after her recent illness.

The regular mid-week prayer meetings will be held in both churches to night.

Mrs. Maxwell of Otis avenue is slowly improving from her illness.

There is being planned by the Eastern Star, a Dutch bazaar to be held the last of this month.

There is to be held at the Second M. E. church this week an afternoon with

Japan for the children. They are to be dressed in costumes and play Japanese games after which refreshments will be served. Calvin Cobb passed Sunday with his mother, Mrs. Albert Cobb.

The infant child of Mr. and Mrs. John Walsh of Rice avenue is very ill. Mrs. T. J. Pettigrew has been restricted to her home for the past week with illness.

Let Gunnison repair your motor and your troubles are over. Cottle's wharf, Kittery.

Mrs. Thomas Tate of Providence, R. I., is visiting her sister, Mrs. J. E. Burnham of Woodlawn avenue.

Mrs. Augustus Thomas, who was reported as better, has had an ill turn.

Mrs. J. E. Burnham very pleasantly entertained a small company of friends in honor of the Rev. J. R. Laird, who is visiting friends in town. A very pleasant evening was passed with music of various kinds after which ice cream, cake and fancy cookies were served.

The many friends of Mrs. Hattie Peirce will be glad to learn that she is able to dispense with the services of a nurse.

Mrs. Harry Longstaff passed the week with Mr. and Mrs. Willard Chick of Post road.

Mr. Augustus Stevenson is much improved from his recent illness.

Miss Emma Gerry is visiting friends in South Berwick.

Mrs. Stokney has improved from her recent illness.

The musical entertainment given in the M. E. church of North Kittery last evening was a great success. There was a large crowd, many came from York, Kittery Point, Kittery Foreside, Elliot and Portsmouth.

Selling out household furniture all this week. D. H. Tyler, Dame and Walker streets, Kittery, Me. - hms, 3t

CARD OF THANKS.

We wish to extend our thanks to friends and neighbors for their kindness and sympathy during the illness and death of our baby and also for the many beautiful flowers.

Mr. and Mrs. Willard G. Emery and Family.

NOTICE--F. O. E.

A special meeting of Aerle No. 553, Fraternal Order of Eagles, will be held on Wednesday evening at 7.30 o'clock, on Daniel street at 8 o'clock for the acceptance of applications and business pertaining to the social to be given U. S. S. Washington and members of No. 682.

GEORGE SNOW, President.
RAPHAEL PAOLA, Secretary.

CHRIST CHURCH NOTES

There will be a service of intercession for peace this evening at 7.30 o'clock. Meeting of the Senior Chapter of the Brotherhood after the service. Woman's Auxiliary on Tuesday afternoon.

Junior Auxiliary Tuesday evening; also a meeting of the Young Men's club.

Ash Wednesday services at 7.30 a. m., 10.30 a. m., and 7.30 p. m. Regular meeting of the Cadets after the service.

Thursday services, 7.30 a. m., and 7.30 p. m. At the 7.30 p. m. Lenten service, the Rev. Frederick C. Cowper of Southville, N. H., will be the special preacher.

Meeting of the Senior Brotherhood and Mothers' meeting after the service.

There will be special Lenten speakers at the services on Thursday evenings in Lent. The Lenten preacher next week will be the Rev. A. Wright Salters of Concord.

A CHAIR FOR GEORGE

George Smith, employed at the freight house of the Boston and Maine, who recently joined the benedict army, has been presented with a costly Morris chair as a gift from his fellow workmen.

SCHOONER AND CAPTAIN WELL KNOWN HERE

Margaret Haskell Wrecked Off
Florida Coast, Formerly
Came Here With Coal.

Captain J. E. Loesch, and 12 members of the crew of the five masted schooner Margaret Haskell were landed yesterday by the steamship Esparta, having been picked up off St. Augustine, Fla., last Thursday in an open boat. The castaways had drifted nearly four days on short rations and were on the verge of exhaustion when they, together with the boat, were hoisted to the steamer deck.

The Margaret Haskell, formerly owned in Boston and well known in this city, was abandoned on Feb. 20 while bound from Pensacola, Fla., for Genoa with a cargo of rosin and lumber consigned to the Italian government on which \$67,000 in freight money had been paid before the vessel left port on Feb. 15. A series of gales was encountered and the schooner became waterlogged near the Northeast Passage in the Bahamas. When it became apparent that the Haskell was doomed the 26-foot power life boat was lowered and another boat containing the effects of the crew was taken in tow.

It was Captain Loesch's intention to stand by till the schooner sank, but trouble developed with the motor and the vessel eventually drifted out of reach. Next day however, the boat overtook the wreck and found her awash. Captain Loesch then decided to head for the coast of Florida about 250 miles away, figuring the set of the Gulf Stream would assist materially in making land. The boat in tow had to be cut adrift owing to its drag, and the lifeboat went northward till the supply of gasoline was exhausted. Two steamers passed almost within hailing distance but the signals were either unheeded or disregarded.

When hope of rescue had been abandoned and the men were sharing the contents of their last tin of meal, smoke of the Esparta was discerned and Captain Loesch ordered a piece of canvas displayed from an upper deck to attract attention. Dark was approaching as the Esparta from Havana rushed alongside, and Captain Loesch and his crew rigged fireline which hoisted the boat aboard without special difficulty. During the remainder of the passage the Haskell's crew recuperated and were in good physical condition on arrival here.

Names of those saved besides Captain Loesch are: Mate J. B. Hammer of Brooklyn, Engineer A. Johnson, Steward Olg Fungli of Denmark, Boatswain David Britton of Columbia, Cook E. Myles of British Honduras, Spanner Fred Trail, D. Lane of North Carolina, H. Pierce, W. McKenzie, N. Hydes, J. D. Moore, J. R. Scott of West Indies.

The Margaret Haskell was built at Camden, Me., in 1904 for the Coastwise Transportation Company of Boston, and was sold to Norton Crossing and Company of New York. She was fully insured on value of \$70,000. Captain Loesch lived lately in Whitthrop. He is famous as a yacht master in several trans-Atlantic matches, having commanded the schooner Endeavour, Fleur de Lys and Meteor, the latter now owned by the German Emperor.

KITTERY POINT

The W. C. T. U. will meet on Thursday afternoon with Mrs. Miriam Billings.

Mrs. Flora Goodwin is confined to her home with a severe cold.

Captain Horace Saunders and Little grandson, Horace Gitchell visited friends in Kittery on Monday.

H. H. Lane of Exeter was a business visitor in town today.

Miss Beatrice Clark was the guest of Miss Pauline Hobbs of Kittery Junction on Monday night.

Mr. and Mrs. John Collins of North Kittery, passed Sunday with Mr. and Mrs. P. E. Cooper.

Mrs. Nelson Webber of Kittery attended the funeral of his little cousin Charles Emery on Monday.

The K. F. O. Club will meet with Mrs. T. B. Hoyt on Saturday afternoon.

The Christian Endeavor prayer meeting will be held this evening at 7.30 at the church. Topic, "The Conservation of Strength." Psalm: 29:1-11. Consecration meeting. Leader: Miss Adelaide Bond.

Mrs. Arthur Hall and son Daniel have returned to their home in Dover after visiting Mrs. Jane Patch.

George Langley of Rochester was a visitor in town on Monday.

Jacob A. Felix has returned to his home in Boston after conducting meetings in town over the week.

W. S. Palmer of Salem, Mass., was a business visitor in town today.

Charles Collins moved his family in

to the house owned by James Monson on Monday.

Alden Phillips recently visited friends in Rochester, N. H.

Morton Seaward has taken employment temporarily at Frisbee Brothers store during the absence of one of the proprietors.

Dorothy Little daughter of Mr. and Mrs. Virgil Lynch is very ill at the home of her parents on the Harbor road.

Mrs. Clifford Bryant of Portsmouth visited Mrs. James Coleman on Sunday.

Asst. Inspector W. Lindsey passed the week-end with his family in Portland.

Daniel Frisbee is attending the Auto Show in Boston this week.

PERSONALS

Mrs. L. H. Thayer passed Monday in Boston.

County Commissioner N. H. Beane is in Boston on a business trip.

Mr. and Mrs. George Smith have returned from their wedding trip.

Mrs. McKenon of 48 Columbia street is confined to her home by illness.

Mrs. H. C. Taylor and children are the guests of her parents in Haverhill.

Mrs. George Meserve of Haverhill is the guest of Mrs. C. W. Bass of State street.

Arthur Cox is passing the day in Manchester as a guest of members of the Queen City fire department.

Mrs. James L. Batcher of Little Boar's Head is the guest of her sister Mrs. B. F. Staples of State street.

Col. H. Clinton Taylor of the Gale Shoe Company left on a business trip this morning as far south as Norfolk, Va.

Mr. Robert Mitchell, child labor inspector is in this city making his usual quarterly inspection of the business places.

Miss Alice House, bookkeeper, at Margeson Brothers, is enjoying a short vacation from her duties, which she is passing in Manchester.

Mr. and Mrs. Harry Philbrook have been in Laconia where Mr. Philbrook attended the annual banquet of the Laconia Board of Trade.

Mrs. M. F. Wentworth who is the guest of Miss Julia Chisholm at the Columbia in Portland, passed the week-end at her home in Kittery.

Mr. Harry N. Harding who has been passing the week-end here, left today on a western trip. Mr. Harding will probably go to Russia this spring for his company.

SCHOOL REPORT FOR YORK COUNTY

The state superintendent of schools has given out the following registration for York county. This county has 9,654 pupils registered in the common schools, of which 4,983 are boys and 4,671 are girls, the average daily attendance for the past year being 7,728 and the average length in days of the school year 177.

The following table shows the number of pupils registered, the average daily attendance and the average length in days of the school year for the cities and towns of York county:

	No. of Daily Pupils Av.	Days Year
Acton	100	81
Alfred	145	112
Berwick	337	273
Bridgeton	1,352	1,280
Duxton	318	249
Cornish	140	110

OBITUARY

Marcus M. Bird

Exeter, March 6.—Marcus M. Bird, a popular employee of the New England Telephone Company as a lineman, died at the Exeter Cottage hospital this morning after a three week's confinement with Bright's disease. He was a native of Germany born Sept. 29, 1850, a son of Jacob and Josephine (Schmeichel) Bird and had lived here 25 years. Mr. Bird was a resident of Main street and is survived by a widow, his parents and a sister, Mrs. Kreyer.

SECOND COMPANY COAST ARTILLERY DISBANDED

Laconia Company Fell Below
Standard—Leaves Three
Companies in Corps.

The Second Company, Coast Artillery Corps, N. H. G. at Laconia, has been disbanded under the following order issued Monday from Adjutant General Charles W. Howard of Concord:

"The Second Company, C. A. C., N. H. G., having fallen below the required standard of efficiency, is hereby disbanded, in accordance with provisions of Section 48 of the militia law."

"The commanding officer is instructed to give honorable discharges to the enlisted men."

"Captain Charles B. Kenison is instructed to immediately transfer to Second Lieut. George B. R. Bowman, all military properties and funds in his possession pertaining to this company, taking receipt thereof in duplicate. Lieut. Bowman will make provisions for the care of the properties transferred for him until orders for their final disposition are issued from this office."

"Captain Kenison is given a full, honorable discharge, taking effect on March 13, 1916. First Lieut. Harry E. Gove is placed on the retired list under provisions of Section 11 of the militia law, by reason of the disbandment of the company."

YORK COUNTY PROBATE COURT

In the York county probate court on Monday, petition for administration was presented by the estate of Daniel Goodwin of Elliot. Accounts were filed by the estate of George Manen of Kittery and Edgar N. Freeman of York. Inventories were filed in the estate of Albert Nelson, York, \$2,153.50.

Petitions for administration were granted in the estate of George M. Muschmore late of Kittery.

Wills were allowed in the estate of Israel Shevench of Elliot.

Accounts were allowed in the estate, second and final (guardian account) Jane E. Keene of York; second and final account estate of Charissa Traflet of York.

CARRANZA FORCES TAKE IMPORTANT CITY

Oaxaca Was Supposed to Be
Headquarters of Diaz in
New Revolution.

(Special to The Herald)

Guadalupe, Mexico, via Larido, Texas, March 7.—The military forces of Carranza have taken possession of Oaxaca, the capital of the state of Oaxaca. Their entry was unopposed, the revolutionary party before having applying the torch and the greater part of the city was destroyed. Reports received at both El Paso and Washington have stated that General Felix Diaz, leader of the new Mexican revolution has arrived at Oaxaca and is holding that city as his headquarters.

IN BANKRUPTCY

Voluntary petitions in bankruptcy have been filed with the clerk of the United States court by Charles E. George of Manchester, with liabilities of \$121.29 and assets of \$19.73; William L. Messer of Claremont, with liabilities of \$389.11 and assets of \$432.31. H. S. Richardson being his attorney.

BACK GIVES OUT.

Plenty of Portsmouth Readers Have This Experience.

You tax the kidneys—overwork them.

They can't keep up the continual strain.

The back may give out—it may ache and pain.

Urinary troubles may set in—don't wait longer—take Doan's Kidney Pills.

Portsmouth people tell you how they act.

J. S. Plasted, retired railroad engineer, 303 Thornton St., Portsmouth, says: "Owing to my work my back became stiff and ached all the time. My kidneys were irregular in action and the kidney secretions were too frequent in passage. Doan's Kidney Pills corrected this trouble and I haven't had a sign of it in a long time."

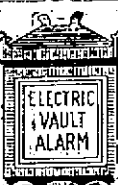

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Plasted had. Foster-McBum Co., Props., Buffalo, N. Y.

GERMANS HAMMERING AT FRENCH FLANKS

Unable to Gain Through Center at Verdun They Are Pushing Attacks Against Left and Right Wings.—Claim 1000 Prisoners Taken in Two Days.

London, March 6.—Finding themselves stalled in their effort to break through to Verdun from the north the Germans are increasing their pressure on the French flanks. There was no infantry active anywhere last night, the operations being confined to big gun fire. West of the Meuse this was particularly true. This might indicate the possibility that the eyes of the German headquarters staff were upon the extreme French left, where the towering height of Le Mort Homme commands the lesser eminences near by and the surrounding plains. The heavy artillery of the Tenth is pounding the defenses in this section. The French are ready for an infantry attack there, but it is doubted in Paris if the Germans will attempt the storming of the commanding position to reach which their troops would have to deploy over a mile-wide plain under a destructive cross-fire. However, today's French official bulletin mentions, as other recent statements have done, the bombardment by the French of German positions in the Cheppy woods, on the Malancourt-Avoourt road and at other points in the Argonne. Apparently some considerable German activity has been noted in this region, and the French guns are directing their fire against it in an effort to forestall whatever development may be impending. Military writers have pointed out the importance to the Germans of a drive southward in this section, as the strategic St. Mihiel-Verdun Rail road, the main line of communication with Verdun from the west and connecting it with Paris, lies just to the south of the forest of Hesse, itself just to the south of the Cheppy woods and of Avoourt. Intense artillery activity in the Woerthe region was reported in the Paris night bulletin, the fire centering upon the regions of Handoumont and Fresnes, about ten miles southeast of Verdun. Military commentators recently have laid stress upon the operations in this section, holding that the most important drive by the Germans might be exerted there, with the object of rolling up the French right flank.

Meanwhile the testing of the French strength by furious assaults on the main defenses is continuing. Illustrative of this was yesterday's attack on the left of the Douaumont section, near the Cote du Pulver. Here the French lines held firm, according to Paris, while in the immediate front of Douaumont the German assaults were temporarily suspended, the heavy French artillery continuing its answer to the rain of giant shells which the Tenth 12's and similar big pieces were pouring upon the defensive trenches. Correspondents who have been at the front quote French military men as declaring that the German achievements so far in the great battle for Verdun have resulted merely in restoring the lines to the positions they occupied at the beginning of 1914, before the French, in a series of local attacks, began expanding the defensive area about the fortress. Verdun itself is now under German artillery fire, but, according to correspondents, little damage has been done there so far.

Scarcely Mentions Verdun
Berlin, Jan. London, March 6.—The battle at Verdun received only passing mention in the war office statement of today. It is said French artillery is keeping up a very heavy fire, especially in the region of Douaumont, but that there has been no further infantry

fighting of great importance. The statement follows:
"Western front: Towards evening lively artillery fire of the enemy developed at several points on the front. Between the Meuse and the Moselle, French artillery continued very active, especially in the region of Douaumont, which at times was bombarded with great violence. There was no lively infantry fighting.
"To avoid unnecessary losses, we evacuated yesterday the trenches captured from the French on Feb. 25 near the forest of Thilaville, northeast of Badonville (Lorraine) before the concentrated fire of the enemy against these positions."

Big Drive at Ypres Near?
London, March 6.—Important movements of German troops in Belgium are reported in a central news despatch from The Hague. It is said information has reached the Hague from Macstricht, Holland, that 40,000 German cavalrymen of the Landsturm are on their way to the front near Ypres.

French Score in Belgium
Paris, March 6.—An official war report says:
"In Belgium, south of Lombardeyde, trenches of the enemy were demolished by our artillery.
"In the Argonne our batteries fired a great number of shots against the enemy's trenches and communicating lines in the region of La Haute Chovancee and at Bourneville, where a fire was started."

German Works Suffer
Paris, March 6.—The official statement issued by the War Office last night reads:
"North of Spionnoir our batteries have carried out a destructive fire on the enemy works.
"In the Argonne our artillery has bombarded the German organization near the road to Benarville, north of Harazee and at Haute Chovancee."

British Held Ground Won
London, March 6.—The British official communication issued last night says:
"Grenade fighting continued last night in the craters northeast of Verdun. Today the enemy artillery has been active about Loos and northeast of Ypres."

The situation on the Ypres-Comblanchette canal is quiet, and our troops retain the ground gained there March 2.
Turks Terrorize Trebizond
Petrograd, via London, March 6.—The Russian Black Sea fleet is extending the scope of its operations far to the westward of Trebizond and has bombarded the mouth of the Taurus River, where a fleet of sailing vessels had taken refuge. The Taurus is 210 miles west of Trebizond.
Thirty miles east of the Taurus the fire of the warships destroyed barracks and depots and many Turkish craft. Along the coast line included between these two points the Russians during the last few days have sunk more than thirty sailing vessels laden with war supplies.

The civil population of Trebizond is reported to have virtually all left the city, those remaining falling victims, according to advices received here to the demoralized Turkish soldiers, who are said to be looting stores and houses and creating a reign of terror.

The Russian front southwest of the Caucasus theatre extends for a distance of 270 miles. Military critics emphasize the caution and deliberation which are characterizing the advance along the whole front, the difficulties of which multiply daily with the increasing distance from the Russian bases in contrast with the impulsiveness of the earlier days of the campaign.

The Russian advance is still 260 miles from the nearest point of approach to the Baghdad Railway, south of Baku, namely Ras el Ain.

Russians Revenge Armenians
London, March 6.—The Russian soldiers at Baku, according to a Petrograd despatch to the Morning Post, took a terrible revenge on the Turkish troops for the cruelty which the Turks were alleged to have practiced toward the Armenians in that district. The correspondent says:
"A terrible slaughter followed the capture of the Turkish positions at Baku. The Russian troops had witnessed at Van, Mush and many other places an appalling sight, the massacre, namely, by Turkish fanatics of tens of thousands of Armenian Christian men, women and children. It was unlikely after such deeds that any quarter should be given. This colossal killing completed the destruction of the Turkish third army."

The garrison of Goruckpoor, in the province of Ondh, India, in the year 1902 consisted of 4,000 men, and about half of these were split up into small detachments and stationed here and there in the north to keep order among the hillmen and punish robbing dacoits. Dacoits are bands of robbers under command of a chief who holds a religious influence over them, and they are yet the pests of India along the foothills of the Himalayas. They are daring men and hard fighters, and very few British soldiers who fall into their hands are spared.

We were in the midst of what seemed to be peace when the government dispatched a large train of treasure and military supplies from Goruckpoor for Chitoria. Colonel Kemble, who had been ordered to take command of the garrison at the latter place, being just back from a year's leave of absence in England, was with the train, and the whole was escorted by 250 cavalrymen. The route for the train brought it past our station, where it rested for a day and then moved on. In a delicate fifteen miles to the north of us it was ambushed by over a thousand dacoits and suffered a severe loss. There was not only a heavy loss in killed and wounded, but the treasure and a portion of the supplies were captured and run off by the dacoits.

The remnant of the train returned to us and went into camp until reinforcements could come up, and the bullet headed, tyrannical Colonel Kemble, whose obstinacy and recklessness had brought about the disaster, proceeded to make it red hot for everybody. It was a well populated country, with hundreds of loyal natives to be picked up, but the colonel proceeded to look upon each and every one as guilty of having had a hand in the attack on the train. More than a score were shot or hanged offhand, while many were whipped at the post or ordered out of the district. It was a reign of terror for three weeks, and the end was a fitting one.

My own detachment one day brought in a mere boy whom we had found cowering in a thicket. The colonel ordered his execution on the ground that he was a spy. It was only when he knew that he must die that the young fellow braced up and showed his courage, and as he was being led away to execution he said to the colonel:

"Sahib Colonel, I am innocent, and you will be punished for my death. You may shoot me and bury my body, but my spirit will follow you to the grave."

Half an hour later he was dead, but he was the last one to be executed. At midnight that night the colonel called the sentinels into his tent, and with white face and trembling voice and the perspiration standing out on his forehead, he said:

"Mind, do you see that boy sitting on the chest?"

"I see nobody, sir," replied the sentinel.

"He is there, I tell you! He followed me to mess and back, and he has been here in plain sight all the evening. Take him away!"

"But there's nobody here, sir."

And there wasn't. The sentinel called in two officers, who looked and searched in vain and assured Colonel Kemble that no boy was present. He tried to turn it off with a laugh, but in less than twenty-four hours every man in camp knew that the colonel was haunted by a specter. He made a brave effort to bluff it out, but it was useless. The specter followed at his heels by day and night by his bedside at night, and in a week the strong, aggressive man was becoming a mental wreck. He turned to us for pity and sympathy, but we had little to give. He had been brutal and without mercy in his vengeance.

The surgeon looked upon the case at first as some disorder of the brain, but later on acknowledged that it was something beyond his medicine. No one else could see the specter. The colonel would say that it sat beside him or stood in the doorway, but there was nothing for the eyes to rest upon. He would draw his sword and cut and slash and thrust at the specter, but he could not harm it. By the surgeon's advice the colonel returned to Goruckpoor. It was reported as a case of breaking down over mental anxiety, but hundreds of people came to know better. The specter followed him back, followed him to the house of a friend, and with him through every night and day of his life. He could no more shake it off than he could change the color of his eyes. He made the greatest sort of fight, knowing that his future career was at stake, and at length all men came to pity him—pity him and avoid him as one possessed. He was medicinally treated, given brief furloughs and every effort made to build him up, but at the end of eight months, every day and every night of which had been a terror to him, he ended by blowing out his brains.

Was it a case of a man haunted by a specter seeking revenge? It was not so reported officially, but from first to last and from the highest to the lowest and this includes two surgeons, it was fully and firmly believed that it was, and the unhappy affair had a great influence over other officers in their future treatment of the natives.

The Specter Of Goruckpoor

The Boston auto show is attracting many local car owners.

WHERE DRUGGISTS FLOURISH

How the Business is Run in the South American Republics.

Latin Americans are great believers in medicines and due to the scarcity of physicians are obliged to "doctor" themselves. Pharmacy is consequently profitable. With the exception of modern Europe, Canada and the United States pharmacy is practiced in other lands of the world much as it was in the United States seventy-five or a hundred years ago, and this is particularly true of the republics to the south of us.

The individual druggist makes his own pills, extracts, tinctures, infusions and pulverizes his own crude drugs. Soda water fountains and few. The usual rubber goods, toilet articles, soaps, perfumes, instruments and sundries are carried.

Each druggist makes a line of his own specialties which he pushes. In addition to the standard drugs and medicines, he also carries remedies and medicines known only in his immediate vicinity. They are mostly of Indian origin, compounded from roots, herbs or other ingredients, produced only in the country where he lives. These find a ready sale among all classes.

Superstitious ideas are prevalent, and these are frequently taken advantage of by the unscrupulous. One pharmacist made a fortune selling Indian, half castes, and whites, for that matter, too, "pink love powders" and "white love powders." The white love powder was pulverized sugar, while the pink love powder was made of the same material colored. Indians would walk hundreds of miles to buy this precious powder.—Lester's Weekly.

THE GARDEN OF EDEN.

It is Said to Have the Most Trying Climate in the World.

The chief peculiarity about Kurna is that the natives believe the place where they live is the exact site of the garden of Eden.

The climate of Kurna is acknowledged to be the most trying in all the world. The heat is terrific in the summer time. It is claimed that the British government has a record of 150 degrees in the shade upon the bridge of a boat anchored in the river at Kurna, a little to the south.

The missionaries at Dargah tell of nights when the thermometer registers not less than 125 degrees. British soldiers bound for the Persian gulf in the summer time usually desert if they can. Perhaps in Arizona the thermometer rises nearly as high, but there is the dry air, while in the Persian gulf it is exceedingly moist.

The Europeans at Dargah must pass the days in underground chambers, or verandas, while a native boy pulls a huge fan, or pashala, suspended from the ceiling to keep the air in circulation. The nights are spent on the roof, for it is impossible to sleep below.

In the winter time the air seems exceedingly cold, for the marshes are filled with salt, and as the wind sweeps over the plain the moist air is peculiarly penetrating. Frequently the Arab, haggard by the cold, falls from his horse.—Christian Herald.

Where Plato Taught.

The famous academy of Plato was in a suburb of Athens, about a mile north of the Dnyan gate. It is said to have belonged to the hero Academicus; hence the name. It was surrounded with a wall and adorned with walks, groves and fountains. Plato possessed a small estate in this neighborhood and for some fifty years taught his "divine philosophy" to young and old assembled in the academy to listen to his wise words. After Plato's death in 348 B. C. the academy lost much of its fame, but the beauty remained for centuries after the great teacher was no more.—New York American.

The Margin of Leisure.

A broad margin of leisure is as beautiful in a man's life as in a book. Waste makes waste no less in life than in housekeeping. Keep the time, observe the hours of the universe, not of the cars. What are three score years and ten hurriedly and coarsely lived to moments of divine leisure in which your life is coincident with the life of the universe? We live too fast and too carelessly, just as we eat too fast and do not know the true savor of our food. We consult our will and understanding and the expectation of men, not our genius.—Florence.

Inducements to Matrimony.

There prevails in some parts of Brittany a curious marriage custom. On certain feast days the marriageable girls appear in red petticoats, with white or yellow borders around them. The number of borders denotes the portion the father is willing to give his daughter. Each white band denotes 100 francs per annum; each yellow band represents 1,000 francs a year.

Volcano Made by Man.

At Brulo, France, the most remarkable volcano made by man. Originally it was a mass of coal, millions of tons. One day, about a century ago, the coal caught fire, and it has never ceased burning. The summit of the smoldering mass has a genuine crater.

Paradoxical.

"There was a funny thing about that counterfeit note charge."

"What was it?"

"The grand jury found a true bill in the case."—Baltimore American.

The grapplest of all human sentiments—what is that? It is that man should forget his anger before he lies down to sleep.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Backache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, stomach trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders, come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular or passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regulated meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

OBSEQUIES

James L. Jones.
Funeral services of James L. Jones, who died in Brooklyn, N. Y., March 4, were held at the Universalist church in this city Monday afternoon at 2 o'clock. Rev. L. W. Atwood conducting the service. Interment took place in the cemetery of the Universalist church in Harmony Grove cemetery under Dr. Nickerson.

ENTIRE WORLD IS WATCHING THIS NATION

REV. THOMAS CHALMERS IN ADDRESS BEFORE JOHN LANGDON CLUB, SPEAKS ON SUBJECT OF WAR AS AFFECTING POPULAR GOVERNMENT.

A large number of members and guests were present Monday evening at the social meeting of the John Langdon Club, held in the North Parish Chapel on Middle street. An able address was presented by Rev. Thomas Chalmers of Manchester who took as his general subject the question "How will the Present War Affect Popular Government?" In Mr. Chalmers' opinion popular government is the people's right. It is the result of the present war and he thinks that the rule of the people is strong enough to survive the great storm that is sweeping over Europe at the present. But he pointed to the fact that the people of the world were looking to this nation for the answer to the demands of efficiency and endurance and that the safety of the race depended upon the strength of every individual.

He said in part:—

The Present Day Test of Popular Government.

It is my solemn opinion that the present war in Europe marks the beginning of a new epoch in the history of humanity. In importance this epoch is surpassed by only two others. The first was the triumph of Christianity over Paganism; the second was the triumph of Democracy over Despotism. The first was completed at Constantinople, the second was completed by the American and the French Revolution. In each case the new epoch always made the former immediately obsolete and antiquated. The old Pagan thought and beliefs and customs died almost at once. Also the old tyrannies of the middle ages with their doctrines of kingly power as divinely established, died almost at once after the French Revolution. The kings who have remained have said little about their God given rights. They have been content to accept their rights from the people. Therefore even in so called monarchies the people throughout the civilized world have come into their own dominion. This is the era of popular government. We are still under the influence of the thrill of Democracy. The eloquence of Mirabeau and of Marat still furnish the model for our Fourth of July speech. Eagerness and our Chautauqua spellbinding. The right of the people to rule has been the theme of the political orator from the days of Tom Paine and Seneca to these days. But, my friends, the solemn question that now arises is no longer whether the people have the right to rule. It is generally granted that they have that right. The question is no longer whether they can reason out their claims before an open minded audience. We know they can reason out their claims, but there is a new and solemn ques-

ALWAYS AT YOUR SERVICE

tion suggested by the events of this terrible war. It is this. Has popular government the power to survive. Has it the intelligence, the fitness, the efficiency that will enable it to endure the shock of the terrible combat for existence. I think it has. But it has not yet shown it. The issue is clear cut. Democracy must rise to its obligation. It must lay its finest, highest, strongest qualities on the altar of the public weal. Every discovery, every invention, every power of hand and mind and heart devoted to the common cause will not be more than popular government needs for the test that it now confronts. These are no days for self seeking for political game playing, for trading, for bartering away the fate of humanity. In the old days when we felt that we had won the battle of popular government once for all, and that nothing could ever take it away from us we might be justified in playing with it and in taking chances with its fate. That day, my friends, is past, the people may continue to rule only on one condition, and that is, whether they are strong enough to rule.

America is the world's greatest republic of all the ages. The fate of popular government in the world awaits America's answer to the demands of National efficiency and endurance. The days have come when we must deal with vice, with corruption and with all manner of municipal and political wrong as the Netherlands dealt with the leak in the dyke. The safety of the government depends upon a strong, ready, robust race of men. A race of which every individual is ready to render the best there is in him once and always to the welfare of the whole.

EXCELLENT BILL AT THE COLONIAL.

The vaudeville program at the Colonial Theatre last evening included four acts of high standard, any of them worth to work at any house in New England. The large audience at the theatre last evening was delighted with the entertainment presented. The Cronwells, a young lady and gentleman, presented a juggling act that has seldom been surpassed as a feature act. Miss Cronwell performing some excellent club swinging and diabolo work that was excellent. Both performers were fine and their act was interspersed with some delightful comedy that was refreshing.

Koster proved an aerial entertainer who had some new stunts to offer. His work on the rings and his chair balancing numbers were clever, his feature number, that of walking up-side-down by means of cords attached to air rising suspended close to the top of the opening of the stage, was a novel and sensational piece of work with a thrill for every moment he was before the footlights.

Wayne and the Warren Sisters have been here before and were given a warm reception. The two girls proved as good dancers as they were on the previous visit and the singing and dancing numbers presented by the trio were new and entertaining, calling for much applause.

Dupree and Henshaw, two young ladies, presented an entertaining act as the Suffragettes in the "Anti," which included some clever speech making and comedy. Their march at the conclusion of their act was a real hit.

TWO FINE PICTURES IN OLYMPIA BILL.

"The Corner" is the title of the big feature picture presented on the program of the Olympia last evening and proved to be one of the photo-dramas with a grip that held the audience interested from start to finish. It tells the story of a financier who built up a wonderful money making machine with which he succeeds in crushing victim

after victim. The struggles of one family and their final victory over the remorseless speculator, working until they succeed in causing the crushing of the speculator by the very machine he has created by his own hands. It portrayed in a realistic and convincing manner in the picture play. William Mack and George Kewett are featured in this Triangle play.

In the comedy feature, another Triangle and a Keystone, "Fatty" Arbuckle and Mable Normand of Keystone fame, presented a half hour of good clean fun in "Fatty and Mabel Adrift." Both these stars are at their best in this comedy-drama and they gained new friends from being shown last evening. "Fatty and Mabel Adrift" being one of their best comedy plays.

ONE ARMED GERMAN VOLUNTEER WINS IRON CROSS

Berlin, March 6.—Although he has been a cripple for years, Wilhelm Jaeger of Elbing, is serving as corporal in the German army and he has already earned the Iron cross of the second and first class and many other decorations.

About nine years ago he lost his right arm through an accident. When this war broke out his two sons went to the front and his daughter entered the Red Cross. In spite of physical disability and the fact that he was over fifty years old, he offered his services as a volunteer. He was rejected but his persistency finally won out. As he possessed an excellent trained dog he was attached to the ambulance corps of one of the brigades on the eastern front.

Within a few months, the one-armed volunteer with his dog saved 31 soldiers, risking his life every time. He was decorated with the Iron cross of the first class and promoted to the rank of corporal, but did not feel content as a member of the sanitary corps.

Last summer he was permitted to join a company in the trenches. He proved himself an excellent marksman with his one arm and quickly won new distinction by his bravery. With his dog he understood during reconnaissance expeditions far into the Russian positions. In September he entered a Russian trench alone. He shot two Russian soldiers while his powerful dog tore another one to pieces. In the fight he lost one of his legs and received a saber thrust in the stump of his missing arm, but he made 23 prisoners whom he transported to the trench of his company.

He has repeatedly been presented to the Emperor. He has been decorated with the Oldenburg Cross of Merit, the Austrian gold medal for bravery and the Hungarian military cross.

When baby suffers with eczema or some itching skin trouble, use Doan's Ointment. A little of it goes a long way and it is safe for children. 50¢ a box at all stores.

PENNER IN

By WILLIAM CHANDLER

There is an infinite number of islands in the Pacific ocean, and there is a diversity of condition among the inhabitants of the different islands. Fifty years ago I knew more about them than I do now. When I was a boy of eighteen I shipped on a small steam vessel running from San Francisco among these islands, trading by the way. The captain, Simpson, was then quite an old man and had sailed among them for a number of years. He knew the character of the people of the different islands and told us that, while most of them were approachable, there were a few at which he would not care to touch unless with a numerous crew and with plenty of arms and ammunition.

During one of our voyages we had had luck from the start. Our crew was a small one when we left San Francisco. Two men were taken ill within a week after we left, and both died. Another fell down an open hatchway, and still another was washed overboard and lost.

We had passed the Hawaiian and crossed the equator not far from the international date line when we struck a northeast that drove us on to a point directly north of the Fiji. During the storm we shipped a sea that drove one man headfirst against the bulwarks and washed another one overboard. This left us the captain, the mate and three seamen. Hardly had the storm blown itself out when something about the firebox gave out and we were obliged to let the fires go down in order to find out what it was. We had sail enough to keep a steerage way, but no more.

Just before the captain gave the order to put out the fires I noticed him looking intently at an island lying off our port bow and heard him tell the mate that he believed it to be one from which on a previous voyage he had, narrowly escaped with his life. Having found the natives bent on plunder and ready to strike any weak crew that came within their reach, he did not relish the idea of putting out the fires in that locality.

However, there was no choice in the matter, and when the firebox had cooled down one of our number went up to it for an examination. Unfortunately the wind was blowing straight toward the island. Presently we saw a number of canoes coming out from the shore. The captain looked grave. Under sail we couldn't make four knots, and we were too few to defend ourselves against the swarm of dusky men who were coming for us. The mate suggested that they were only coming out for trade or to beg and wouldn't harm us. The captain said he knew better; they would murder us, take what they wanted and either get the ship to the shore or sink her.

The only chance there seemed to be for us was to hide. We all went down and got into the firebox, where a man was working, and closed the door. The hatch fell and could be opened only from the outside. But this didn't trouble us, for the man who had been at work had his tools, and when we wanted to get out it would be possible for him to bore a hole near the hatch so that it could be lifted.

The furnace room was pretty dark, and since we all packed ourselves in the far end of the firebox we were not likely to be seen except by a pair of first rate eyes. We waited in suspense. All we heard men tramping about above. They must have been surprised to find the vessel deserted, but delighted as well, considering that there was much plunder for them. We heard them everywhere, ardently collecting what they wanted. The door of the firebox was opened twice, but whoever opened it shut it again without taking the trouble to make an examination.

The visitors remained on board till we began to feel the vessel rolling considerably; then the sounds suddenly ceased. It was evident that the sea was getting rough, and they did not dare stay longer. Then Captain Simpson directed the man who had been repairing the firebox to drill a hole so that the hatch could be lifted.

Boring a hole in wood and iron are two different things. The one can be done in seconds; the other may take hours. The man had been drilling some time when we began to feel water on the firebox floor. Bringing the light the workman had with him, and by which he was drilling, to bear on the door, we saw water trickling in at several points.

Every man of us paled. The ship had been scuttled, and we were stranded in to be carried to the bottom.

The man who was drilling had splendid nerve. He did not lose his head, but kept steadily on, conscious of the fact that he must make an opening before the ship sank and not knowing how soon she would sink. When he was nearly through, removing his drill and putting in a steel implement, he hammered it through. In a few minutes he inserted his fingers and lifted the hatch.

The water had made considerable headway, but not so much that it could be seen pouring through an average hole in the side. We plugged it and, rushing on deck, saw that we had been blown past the island and were drifting away from it. Then we manned the pumps for awhile, completed the work in the firebox and in due time were once more steaming safely on.

LECTURE IN MODERN JOURNALISM

Professor Scudder of New Hampshire college gave a very interesting address before the Portsmouth Civic Society at the High school hall on Monday evening in the series of free lectures being held by this association. His subject was "Modern Journalism," and he handled the difficult subject very well, it being a topic that few are qualified to speak on.

K. O. F. C.

There will be a first degree and refreshments at the regular meeting of the Council this evening. The usual reunion will be held after the meeting. A large delegation from the Council attended the musical performance and musical frolic given by Dover Council last evening.

There will be a meeting of the Debating Club next week.

CLOSE GAME.

The Crescent basketball team of this city were defeated by the close score of 37 to 33 by Company C. National Guard, at Milford on Saturday last. Spectators say it was the fastest game seen in that town for many days and was witnessed by nearly 1500 people. The Portsmouth team were guests at a banquet which followed the game.

AT THE AUTO SHOW.

Fred H. Gray, Willard M. Gray, Cecil Neal, Manning Akerman, Christopher Smart witnessed the automobile show at Boston today.

How much longer will we have to wait for Portsmouth's "Gray White Way?"

"FATTY AND MABEL ADRIFF"
Triangle-Keystone comedy in three reels. A riot from start to finish.

Coming Wednesday and Thursday—William Fox presents Robert Mantell in "The Diligencia of Devotion." A modern society drama of today.

POSTMASTER'S COMMISSION SIGNED

Mr. Dowd Receives Word It Was Signed Monday—Will Take Office Last of Week.

Postmaster-elect John H. Dowd, who has been anxiously awaiting his commission as postmaster of this city since the first of March, received a telegram from Senator Hollis today stating that his commission had been signed on Monday and would be forwarded immediately. Mr. Dowd will probably relieve Postmaster Connor this last of the week.

The reason given for the delay of the commission is the great rush of work at the White House.

EXTEND VOTE OF THANKS

Organized Charities Acknowledge Great Work of the Elks for Charity.

At a meeting of the executive committee of the organized charities held at the county commissioners' office on Monday afternoon, the receipt of \$1104 from the Elks, the proceeds of the charity ball was acknowledged and a vote of thanks extended the lodge for its magnificent gift for charity.

The special committee on a worker, reported that while they have been making a great effort they have not been able to secure the proper person for this work, in fact there is such a demand for trained charity workers in the country that it is exceedingly hard to secure a good one. There is also in view and the committee was given more time.

It is clearly evident that as the work of the new organization is to be almost wholly along constructive lines that a person trained in the work is necessary. The object of the society is not only to relieve the needs of the poor but to try and assist them so that they will be self-supporting and no longer need aid from charity organizations. This, in some families, is a long process, beginning with the practical education through friendly visits of the whole family and by encouragement and securing work to get them once more on their feet.

THE HERALD HEARS

That a well-known hotel proprietor says Dan Cupid has his female help shot to pieces.

That it will be a hard job for him to put a quetus on the winged boy with the bow and arrow.

I WONDER

If a move cannot be made, to have more conventions of secret orders, social and other organizations in Portsmouth during the summer of 1916?

If some decent light would not be appreciated by the public and improve conditions on Cotes street, leading to the public ferry?

If the water department will ever get the needed improvements at the Sherburne pumping station?

If certain members of the Crescent club intend to take up the fruit and candy business in Milford, N. H.?

How the Kittery school house question will come out. It looks as if there will be something doing at the next town meeting?

When the navy yard workmen's train will start and stop at Cabot street again?

If the fancy poultry man on Dow street has anything to say about the big egg laid by a pullet at Kittery Point which weighed four ounces and measured 6 1/2 by 5 inches.

When the Boston and Maine will consider Portsmouth when making appropriations for improvements of some of its larger depots?

If the Standard Oil Company will close that deal for property along the water front and erect the necessary buildings for a big storage plant off water street?

How many new voters have been added to the several lists by the board of registrars?

Why so many voters are so careless as to neglect the duty of placing their names on the list and wait until the last minute to get a permit to exercise their right by means of a certificate?

FRANKLIN HIGH SCHOLARS GET A REAL TREAT

Franklin, March 5.—Mrs. Lucy H. Odell of this city has delighted the senior class of the high school by offering to bear all the expenses of a trip by the class to Washington.

There are 23 members of the class. It is expected that the start will be made March 24, and that the party will be away about a week.

The city council, at its meeting tonight, re-elected Mrs. Odell a member of the park commission.

MEETING OF POULTRY ASSOCIATION

An important meeting of the Portsmouth Poultry Association will be held at the Board of Trade rooms at 7.30 this evening. Installation of officers.

CUPID'S BUSY SEASON.

Several Out of Town Couples Made Happy Here.

It is evident that Dan Cupid is rushing in his line of duty in order to make a few of his victims happy before Lent. The record up to date, includes the following marriages:

D. Leslie Logan, a clerk of East Boston and Miss Julia N. Monk, same occupation and of the same city, by Rev. P. W. Caswell.

Philip E. Mason, a manager of Brookline, Mass., and Miss Marion G. Warren, daughter of Ernest Warren, a chemist at Portland, also by Rev. P. W. Caswell.

Morris N. Prince, a barber of Newburyport and Miss Sutton of the same city, by Rev. Alfred Gooding.

William Wilson, a papermaker of Hingham, Me., and Miss Florence Curley of the same city, by Rev. C. Le V. Brine.

DIED OF HIS INJURIES.

Edward F. Small Dies at Portsmouth Hospital This Morning.

Edward F. Small, who on Sunday was burned at the plant of the Rockingham Light and Power Company, died early this morning at the Portsmouth hospital as the result of his burns. He was 66 years of age. He leaves a widow.

The funeral services will be held Thursday afternoon at 2 o'clock from the Methodist church.

The street department put on a number of extra men this morning to help handle the snow.
